1. What is the Community Services Fund?

The Community Services Fund relates to the requirements of Section 356 of the Local Government Act 1993 whereby Council may contribute money or otherwise grant financial assistance to persons for the purpose of exercising its functions. Funding is determined by Council annually and allocated as part of the Organisation's annual budget

This grant provides funding to community organisations to support projects or activities that deliver social or environmental outcomes to the Dubbo Regional Council local government area and help create, enhance or build community well-being and amenity.

Definitions

Community organisation means:

- A. an entity that carries on activities for a public purpose; or
- B. another entity whose primary object is not directed at making a profit.

Community well-being is the combination of social, economic, environmental, and political conditions identified by individuals and their communities as essential for them to flourish and fulfil their potential.

Community amenity means any public benefit, improvement or contribution that can enhance the quality of life for a community and includes, but is not limited to, public spaces, land or an interest in land, affordable and/or special needs housing, and facilities, which meet a range of social, environmental, cultural, recreational and infrastructure needs of the community.

Social outcomes specifically focus on a particular population or community and can include various aspects such as changes in knowledge, attitudes, behaviours, or living conditions. They reflect the positive effects that the initiative aims to achieve in society.

All grants are governed by Dubbo Regional Council's Financial Assistance Policy.
