

FREE GREEN WASTE DROP OFF

Following the storm on Thursday night Dubbo Regional Council (DRC) will be accepting green waste material from residents affected by the storm free of charge at the Whylandra Waste and Recycling Centre.

Only green waste material from storm damage in Dubbo will be accepted for free.

The area included in the zone for acceptance of green waste is defined as the Dubbo urban area which is all residents with a three bin service, where the storm hit the hardest.

The determination of the weighbridge attendant is final.

Please note:

- Customers will still be required to pay for all other materials they are disposing of.
- Only green waste created from the incident will be disposed for free. No grass clippings, prunings or general rubbish will be accepted.
- If your damage is the subject of an insurance matter, you will need

to go through your insurer.

- This is for residential use only, commercial businesses are not included.
- The free drop off service for green waste will be available until close of business on 19 February.

Unfortunately there are currently no resources for a kerbside green waste pick up available.
