

# WHEELERS LANE REHABILITATION WORKS

Dubbo Regional Council (DRC) advises the public that rehabilitation night works will be undertaken on Wheelers Lane from Doncaster Avenue to the Keswick Parkway Roundabout from Wednesday 22 February.

Works are planned from the night of Wednesday 22 February to Friday 24 February, and then again from Monday 27 February to Wednesday 1 March, weather permitting, between 6pm and 5am.

During the works crews will be excavating and constructing pavement in three areas to allow for asphalt deep lifts which will also be undertaken during the work period by an asphalt specialist company.

Due to these works traffic will be detoured through Keswick Parkway with an increase in traffic along Keswick Parkway, Volta Avenue and Page Avenue during the detour, and an inconvenience to some local businesses and residents.

Council thanks the community for their understanding during these

works.
