Pricing Policy

FCR – Full Cost Recovery

Price set to recover the full cost of providing the goods/services. In determining whether this principle is appropriate consideration is given to whether there are community service obligations or equity issues that would warrant an alternative pricing principle.

IS – Industry Standard

Price is set by regulation or statute. These fees are set and Council has no discretionary power to alter these amounts

MB – Market Based

Price is set by reference to local market prices. Fees are set to be competitive with local service providers

NC – No Charge

No price charged for the service.

PCR – Part Cost Recovered

Price is discounted to below the full cost of providing the goods/services in recognition of a community service obligation. Funding for these services is sourced from other revenue and by charging a nominal fee to help offset the cost of providing the services.

S – Statutory Amount

Price is set by statute. These fees are set by State Government and Council has no discretionary power to charge more than amount.

This document includes the details of each fee, charge or contribution, Council’s pricing policy and a comment as to the purpose of the fee, charge or contribution. The Fees and Charges (including the annual waste service charges) have been harmonised excluding for the Ordinary Rates and Annual Charges due to the Local Government Amendment (Rates Merged Council Areas) Bill 2017, the Ordinary Rates and Annual Charges structure that applied in the 2020/2021 rating year has been maintained for the 2021/2022 rating year.
