

# Macquarie River Precinct Concepts Workshop

## Agenda – sala4D and Moir Landscape Architects

Tuesday 11 October 2022:

### **The survey results are in and have confirmed the community's desired direction for planning the North and South Precincts of the Macquarie River Corridor in Dubbo!**

The survey showed that there is a strong preference for environmental restoration and passive recreation in the South, and a desire for new sporting fields to be planned in the North.

Environmental values in general have received the strongest support from the community and the concept workshops will help decide how best these can be delivered, while also providing amenity such as access to the river, walking paths, playspaces, picnic areas and opportunities for events such as Mud Run.

**We look forward to seeing you there!**

### **South Precinct**

Workshop 1 – South Precinct 12pm to 1pm
