The Committee had before it the report dated 4 March 2019 from the Senior Traffic Engineer regarding Proposed Traffic Management - Intersection of Maxwell Street with Cross Street and Thornton Street, Wellington.
The Committee had before it the report of the Infrastructure, Community and Recreation Committee meeting held 11 February 2019.

RECOMMENDATION

That the report of the Infrastructure, Community and Recreation Committee meeting held on 11 February 2019, be noted.
PRESENT: Councillors J Diffey, D Grant, A Jones, S Lawrence, K Parker and B Shields.

ALSO IN ATTENDANCE:
The Chief Executive Officer, the Executive Manager Governance and Internal Control, the Governance Team Leader, the Director Corporate Services, the Director Economic Development and Business, the Communications Coordinator, the Director Infrastructure and Operations, the Director Planning and Environment, the Trainee Planner, the Director Community and Recreation, the Manager Recreation and Open Space and the Manager Social Services.

Councillor S Lawrence assumed chairmanship of the meeting.

The proceedings of the meeting commenced at 5.34pm.

ICRC19/1 REPORT OF THE INFRASTRUCTURE, COMMUNITY AND RECREATION COMMITTEE - MEETING 12 NOVEMBER 2018 (ID19/42)
The Committee had before it the report of the Infrastructure, Community and Recreation Committee meeting held 12 November 2018.

Moved by Councillor D Grant and seconded by Councillor J Diffey

MOTION

That the report of the Infrastructure, Community and Recreation Committee meeting held on 12 November 2018, be noted.

CARRIED
The Committee had before it the report dated 4 February 2019 from the Sister Cities Officer regarding Dubbo Regional Council 2018 Sister City Student Exchange Visit to Minokamo. The Committee was addressed by Ashleigh Hull and Ben Collingridge representatives of the Minokamo Student Exchange regarding this matter.

Moved by Councillor B Shields and seconded by Councillor D Grant

**MOTION**

That the report from the Sister Cities Officer dated 4 February 2019 be noted.

CARRIED

The Committee had before it the report dated 4 February 2019 from the Senior Traffic Engineer regarding 2019 Dubbo Motor Bike Rally.

Moved by Councillor J Diffey and seconded by Councillor A Jones

**MOTION**

That Council approval be granted to Dubbo Motor Bike Rally Incorporated for the implementation of a temporary road closure of Church Street between Brisbane Street and the Cyril Flood Rotunda and part of the Church Street public carpark on Saturday 11 May 2019, between 6.00 am and 6.00 pm to facilitate the 2019 Dubbo Motor Bike Rally in accordance with Council's Traffic Control Plan TM 7263.

CARRIED

The Committee had before it the report dated 4 February 2019 from the Senior Traffic Engineer regarding 2019 Anzac Day Ceremonies - Dubbo Regional Council Area.

Moved by Councillor J Diffey and seconded by Councillor D Grant

**MOTION**

That Council approval be granted to the Returned and Services League Sub-Branch in Dubbo and Wellington and the Stuart Town Advancement Association and Mumbil District Progress Association to undertake their respective Anzac Day Marches on Thursday 25 April 2019 and implement road closures and detours as conditioned by the Roads and Maritime Services, NSW Police and Council's following conditions of consent:

1. **Dubbo:**
   - a) For the Dawn Service and Anzac Day March temporary road closures are to be provided:
• Dawn Service in Darling Street between Talbragar and Wingewarra Streets from 5.00 am to 6.30 am;
• Anzac Day March in Brisbane Street between Wingewarra and Serisier streets and Wingewarra Street between Darling and Brisbane streets from 9.00 am to 10.45 am;
• Wingewarra Street from Brisbane to Macquarie streets and Macquarie Street from Wingewarra to Talbragar streets from 10.15 am to 11.00 am;
• Talbragar Street from Macquarie Street to Memorial Drive, Victoria Park, from 10.45 am to 11.15 am, Darling Street from Talbragar to Wingewarra streets from 10.15 am;
• Wingewarra Street between Darling and Brisbane streets as directed by the NSW Police at the conclusion of the Cenotaph service at approximately 12.00 noon to 12.30 pm;
• Council’s Traffic Control Plan TM7084 (attached as Appendix 5) is to be used for the event.

b) Submission of a Traffic Management Plan and Traffic Control Plan to Council for approval with the Traffic Control Plan submitted a minimum three (3) weeks prior to the event. All traffic control measures contained in the Plan are to be in accordance with Australian Standard AS1742.3 and the RMS’ ‘Traffic Control at Worksites Manual’ prepared by an accredited person.

c) Traffic controllers and/or trained Marshalls are to be provided at all road closure points, and other locations as identified in the Event and Traffic Management Plans (attached as Appendices 1 and 5).

d) Council’s Manager Governance and Internal Control must sight a copy of the Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council and NSW Police are specifically noted to be indemnified against any action resulting from the event.

e) The applicant is responsible for the provision of all traffic controls required for the event (i.e. Marshalls, traffic barriers and signs).

f) A public notification is required for the Anzac Day March a minimum of seven (7) days prior to the event.

g) The applicant is to forward a letter to Council with all the required documentation accepting the above conditions before final approval will be granted.

2. Wellington:

a) For the Anzac Day March a temporary road closure is to be provided on the Mitchell Highway, being Nanima Crescent and Lee Street, between Maughan and Whiteley streets from 10.45 am to 11.00 am, with the detour via Arthur, Warne, Percy and Whiteley streets. Council’s Traffic Control Plan Wellington Anzac Detour (attached as Appendix 6) is to be used for this event.

b) The applicant is to gain consent from Roads and Maritime Services for the closure and detour of the Mitchell Highway and Road Occupancy Licence with evidence provided to Council of such approval and conditions as warranted.

c) Submission of a Traffic Management Plan and Traffic Control Plan to Council for approval, with the Traffic Control Plan submitted a minimum three (3) weeks prior to the event. All traffic control measures contained in the Plan are to be in accordance with Australian Standard AS1742.3 and the RMS’ ‘Traffic Control at
Worksites Manual’ prepared by an accredited person.

d) Traffic controllers and/or trained Marshalls are to be provided at all road closure points, and other locations as identified in the Event and Traffic Management Plans (attached as Appendices 2 and 6).

e) Council’s Manager Governance and Internal Control must sight a copy of the Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council, Roads and Maritime Services and NSW Police are specifically noted to be indemnified against any action resulting from the event.

f) The applicant is responsible for the provision of all traffic controls required for the event (i.e. Marshalls, traffic barriers and signs).

g) A public notification is required for the Anzac Day March a minimum of seven (7) days prior to the event.

h) The applicant is to forward a letter to Council with all the required documentation accepting the above conditions before final approval will be granted.

3. Stuart Town:

a) For the Anzac Day Ceremony a temporary road closure is to be provided in Molong Street, between the Burrendong Way (Alexander Street) and Bell Street from 8.00 am to 2.30 pm, with a detour of Molong Street via Burrendong Way and Bell Street. Council’s Traffic Control Plan TM 7175 (attached as Appendix 7) is to be used for the event.

b) Consent is required from the Roads and Maritime Services for the event to utilise part of Burrendong Way between Molong and Bell streets as a detour with advice provided to Council.

c) Submission of a Traffic Management Plan and Traffic Control Plan to Council for approval with the Traffic Control Plan to be submitted a minimum of three (3) weeks prior to the event. All traffic control measures contained in the Plan are to be in accordance with Australian Standard AS1742.3 and the RMS’ ‘Traffic Control at Worksites Manual’ prepared by an accredited person.

d) Traffic controllers and/or trained Marshalls are to be provided at all road closure points, and other locations, as identified in the Event and Traffic Management Plans (attached as Appendices 3 and 7).

e) Council’s Manager Governance and Internal Control must sight a copy of the Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council, Roads and Maritime Services and NSW Police are specifically noted to be indemnified against any action resulting from the event.

f) The applicant is responsible for the provision of all traffic controls required for the event (i.e. Marshalls, traffic barriers and signs).

g) A public notification is required for the Anzac Day March a minimum of seven (7) days prior to the event, with notification letters to be delivered to the affected residents within the road closure areas in the village.

h) The applicant is to forward a letter to Council with all the required documentation accepting the above conditions before final approval will be granted.

4. Mumbil:

a) For the Anzac Day March and Ceremony a temporary road closure is to be provided on the Burrendong Way (Burrendong Street), between Railway Parade
and Cudgegong Street from 7.00 am to 10.30 am, with a detour via Railway Parade and Apsley Crescent. Burrendong Way from Apsley Crescent south to Cudgegong Street will remain open and restricted to local traffic only, with an additional ‘Road Closed Ahead’ sign and ‘Local Traffic Only’ sign to be placed at the detour point at the Apsley Crescent and Burrendong Street intersection.

Council’s Traffic Control Plan TM7127 (attached as Appendix 8) is to be used for the event.

b) Submission of a Traffic Management Plan and Traffic Control Plan to Council for approval with the Traffic Control Plan submitted a minimum three (3) weeks prior to the event. All traffic control measures contained in the Plan are to be in accordance with Australian Standard AS1742.3 and the RMS’ ‘Traffic Control at Worksites Manual’ and prepared by an accredited person.

c) Traffic controllers and/or trained Marshalls are to be provided at all road closure points, and other locations, as identified in the Event and Traffic Management Plans (attached as Appendices 4 and 8).

d) Council’s Manager Governance and Internal Control must sight a copy of the Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council and NSW Police are specifically noted to be indemnified against any action resulting from the event.

e) The applicant is responsible for the provision of all traffic controls required for the event (i.e. Marshalls, traffic barriers and signs).

f) A public notification is required for the Anzac Day March a minimum of seven (7) days prior to the event, with notification letters to be delivered to the affected residents within the road closure areas in the village.

g) The applicant is to forward a letter to Council with all the required documentation accepting the above conditions before final approval will be granted.

CARRIED

ICRC19/5 WELLINGTON MEMORIAL POOL - CLARET ASH (ID19/10)
The Committee had before it the report dated 15 January 2019 from the Manager Recreation and Open Space regarding Wellington Memorial Pool - Claret Ash.

Moved by Councillor J Diffey and seconded by Councillor K Parker

MOTION

1. That the report from the Manager Recreation and Open Space dated 15 January 2019 be noted.
2. That the information contained in the arborist report, ENSPEC, dated 14 January 2019 be noted.
3. That based on the information provided the Claret Ash located directly behind the heritage pavilion be removed and replaced with an appropriate species at an advanced stage of development, and that an appropriate root vault and barriers be installed to provide favourable growing conditions and to prevent future damage to buildings, pools and associated infrastructure.
4. That if the tree is to be removed, the Wellington community be advised of Council’s decision and the reasons that formed the deliberations clarified.  

CARRIED

ICRC19/6  PLAYGROUND SHADE IMPROVEMENT PROGRAM (ID19/12)  
The Committee had before it the report dated 15 January 2019 from the Manager Recreation and Open Space regarding Playground Shade Improvement Program.

Moved by Councillor B Shields and seconded by Councillor D Grant

MOTION

1. That the report from the Manager Recreation and Open Space dated 15 January 2019 be noted.
2. That the proposed expenditure, totalling $1.1million detailed in the report, to enable the implementation of the Playground and Facility Improvements Plan be adopted.  

CARRIED

ICRC19/7  DUBBO REGIONAL SPORTS COUNCIL - PLAYING FIELD IMPROVEMENT FUND - DUBBO ATHLETICS CLUB (ID18/1873)  
The Committee had before it the report dated 12 December 2018 from the Recreation Coordinator regarding Dubbo Regional Sports Council - Playing Field Improvement Fund - Dubbo Athletics Club.

Moved by Councillor A Jones and seconded by Councillor J Diffey

MOTION

1. That the report from the Recreation Coordinator dated 12 December 2018 be noted.
2. That the Dubbo Amateur Athletics Club, Dubbo Sports Council Playing Field Improvement Fund application for $4,275 be approved and the Club be formally notified as to the outcome of their application.
3. That the Sporting Asset Coordinator work with the Dubbo Amateur Athletics Club to complete the project.  

CARRIED

ICRC19/8  DUBBO NEIGHBOURHOOD CENTRE BIANNUAL ACTIVITIES REPORT (ID19/15)  
The Committee had before it the report dated 17 January 2019 from the Manager Social Services regarding Dubbo Neighbourhood Centre Biannual Activities Report.

Moved by Councillor J Diffey and seconded by Councillor B Shields

MOTION

That the report from the Manager Social Services dated 17 January 2019 be noted.  

CARRIED
ICRC19/9 LEAVE OF ABSENCE
Requests for leave of absence were received from Councillors V Etheridge, D Gumley, G Mohr and J Ryan who are absent from the meeting due to personal reasons.

Moved by Councillor A Jones and seconded by Councillor J Diffey

MOTION

That such requests for leave of absence be accepted and Councillors V Etheridge, D Gumley, G Mohr and J Ryan granted leave of absence from this meeting.  

CARRIED

The meeting closed at 5.51pm.

....................................................

CHAIRMAN
EXECUTIVE SUMMARY

Cameron Park is located in the CBD of Wellington and dates back to 1859. It was officially proclaimed in 1882 as Bell Park. During the early Twentieth Century the park layout was formalised and was renamed Cameron Park in 1910 to honour the then Mayor, Alderman Thomas Cameron for his work in establishing the park.

To provide a strategic approach to the restoration and rehabilitation of Cameron Park back to its former glory a draft masterplan was prepared and subsequently adopted at the October 2017 Ordinary Meeting (ICARC17/6). This masterplan was sympathetic to the historical importance of the existing layout of the park and its path system, and also recognised that the entire park fell within a Heritage Conservation Zone that requires a formal approval process (i.e. Development Application) for any works that can negatively impact on the historical fabric of the park.

Through a number of successful grant applications Dubbo Regional Council has $321,000 to commence work on the development of a more extensive path network that utilises the existing path system in Cameron Park and extends it through to Bell Park – linking the new pool facility under construction, and over the Bell River around Pioneer Park and out to Brennan’s Way. This path system is predominately decomposed granite with concrete sections in areas of high erosion (from flooding) potential.

As part of the construction of this path network approximately 20 trees will require removal along the northern side of Showground Road / Bushrangers Creek Road (outside the urban area). The majority of these trees are already significantly impacted by powerline clearance pruning, and a more appropriately size tree can be considered following discussions with Infrastructure Delivery regarding vegetation clearance zone requirements in this area.

Final designs for the paths were received on 25 February 2019 and arrangements for these designs to be fully costed are being made through a Quantitative Surveyor. The pedestrian bridge will also be costed out as shown in the plans, however further investigations and design options need to be carried before a decision is made on how best to proceed.

ORGANISATIONAL VALUES

Customer Focused:
The development of a Bell River walking track provides an improved level of service and recreational opportunities to the Wellington community.
Integrity: Dubbo Regional Council is committed to working with the Wellington community in identifying improvements to the recreational palette, and seeking non-rate funding opportunities to help deliver these projects in a cost efficient and effective manner.

One Team: Recreation and Open Space has worked with Infrastructure Strategy to develop a 5km walking trail along the Bell River, and will continue to work with other sections of Council to identify opportunities to be able to deliver this project.

FINANCIAL IMPLICATIONS
Dubbo Regional Council has $150,000 allocated to the Implementation of the Cameron Park Master Plan (Stronger Country Communities Fund R1) identified for the development of a connecting path from Cameron Park to Bell Park. A further $171,000 has been allocated ($130,000 from SCCF R1 and $41,000 from Stronger Communities (Major Project) Fund)) for the development of a path system from Pioneer Park to Bushrangers Road. A shortfall of $115,000 exists for the construction of the path system.

No funds have yet been identified for the renewal of the pedestrian bridge over the Bell River linking Cameron Park to Pioneer Park. As final designs of this bridge and access ramps have not yet been finalised a formal cost estimate is still to be devised.

POLICY IMPLICATIONS
There are no policy implications arising from this report.

RECOMMENDATION

1. That the report from the Manager Recreation and Open Space, dated 25 February 2019, be noted.
2. That the proposed path network for the Wellington CBD Walking Trail through Cameron Park and Pioneer Park, be adopted.
3. That following DA approval, works commence on the path system in Cameron Park and Pioneer Park in accordance with the funding allocations identified herein this report.
4. That a further report be submitted to Council at its Ordinary Meeting by June 2019 with cost estimates identified to complete any outstanding works on the path network, and the demolition and replacement of the Bell River pedestrian bridge for consideration in the finalisation of the 2019/2020 budget.

Ian McAlister
Manager Recreation and Open Space
Cameron Park is located in the CBD of Wellington and dates back to 1859. It was officially proclaimed in 1882 as Bell Park. During the early Twentieth Century the park layout was formalised and was renamed Cameron Park in 1910 to honour the then Mayor, Alderman Thomas Cameron for his work in establishing the park.

Once known for its “marvellous towering trees, giving welcome summer shade and cool” (Stuart Read), the quality of the park has unfortunately declined in recent years with many of the trees either in an advanced state of decline, or have been removed altogether. Although some replacement planting has been undertaken over the years it appears to lack any formal structure that is paramount to the philosophy of Victorian era parks.

The formal layout of the paths, which reflect the layout of Princes Street Gardens in Edinburgh Scotland, have remained largely intact over the years and form an integral component of the historical fabric of the park itself. The former Wellington Council recognised the importance of retaining the historical connection of the park and a Heritage Protection Zone covering the Cameron Park and the nearby streets was created.

To provide a strategic approach to the restoration and rehabilitation of Cameron Park back to its former glory a draft masterplan was prepared and subsequently adopted at the October 2017 Ordinary Meeting (ICARC17/6). This masterplan was well received by the Wellington community and retained the historical fabric of the path layout and the majority of the front wall, and strengthened the formal structure of the park through the development of strong deciduous avenues.

In addition the masterplan identified the retention / replacement of the Bell River pedestrian bridge across to Pioneer Park, the creation of a plaza fronting Nanima Crescent and a regional quality playground to attract residents and visitors alike to the park. A copy of the adopted Cameron Park Masterplan has been provided (Figure 1).
Figure 1. Adopted Cameron Park Masterplan (October 2017)

At the October 2018 Ordinary Council Meeting a Mayoral Minute (CCL18/199 - Bell River Pedestrian Bridge, Wellington) was tabled and subsequently adopted. The recommendations from this Mayoral Minute are as follows:
“1. That the Chief Executive Officer be requested to prepare a masterplan for a walking track around the CBD/Bell River precinct in Wellington.

2. That such a masterplan includes the provision for the construction of a new pedestrian bridge that is accessible for people with limited mobility.

3. That the existing pedestrian bridge across the Bell River be demolished.

4. That Council seek funding opportunities to offset the costs of construction of the facilities identified within the adopted masterplan.

5. That a further report be presented to Council in March 2019 consisting of the draft masterplan, project schedule and budget to meet the expected delivery date of July 2020.”

Resulting from these recommendations Council’s Infrastructure Strategy Branch was engaged to undertake the design of the extended path network.

The proposed Bell Riverside walkway that has been designed utilises the existing historic path network within Cameron Park itself, and extends it to the north to Bell Park and west across the Bell River to Pioneer Park and up past the Wellington Showground to Brennan’s Way. The proposed path network will provide a 5km loop that will enable the establishment of Wellington ParkRun, support the Mt Arthur Challenge and offer a safer and more pleasant connection from the CBD of Wellington out to the Showground. The path system has been designed on the northern side of Showground Road / Bushrangers Road to enhance safety for events including the Mt Arthur Challenge and ParkRun by reducing the need to cross streets and driveways (figures 2 and 3). This route will require the removal of approximately 20 trees outside the Wellington 50km urban zone between Pioneer Park and Brennan’s Way. These trees are located directly underneath powerlines and have suffered from repeated pruning events. It is proposed to replant an avenue of suitably sized trees along this section that complies with both RMS and Essential Energy Vegetation Management Guidelines.

Figure 2. Overview of proposed Bell River Walking Trail from CBD to Bushrangers Road, Wellington
Figure 3. Bell Riverside Walkway (5km track)
The most difficult aspect of this design continues to be the renewal of the pedestrian bridge linking Cameron Park, and the CBD, on the eastern side of the Bell River to Pioneer Park on the western side. To enable this bridge to comply with the Australian Standard for Mobility and Access (AS1428), and to reduce the risk of damage by flooding it is proposed to bring the eastern approach of the bridge from the top bank level (292m) in Cameron Park. As shown in figure 4 above, the resultant length of the bridge is approximately 98 metres and the height differential between the eastern and western banks is approximately 3 metres. To comply with AS1428 the length of the access ramps will need to be between 60 metres (1:20) and 42 metres (1:14). Further design work is being carried out to try and minimise these parameters and their cost implications to this project.
Consideration was given to moving the pedestrian downstream of the Bell River, towards the Civic Administration Building. However due to the high mobility of the Bell River channel due to the stream hydrology (figure 5), the decision to retain the bridge its current location was made. This decision was based on reducing the risk of damage to the bridge through flooding or further movement of the stream channel, and the potential cost to future generations if this occurs.

Although the bridge design requires further considerations before finalisation of the plan, work on the installation of the proposed path network can commence following the submission and subsequent approval of Development Applications (DA). These DAs are required as Cameron Park falls within the designated Heritage Conservation Zone and Pioneer Park is within the flood plain of the Bell River. Allowing 6 weeks for assessment, and on the basis that it is approved, works would be able to commence by the end of June 2019, following the quotation process. Allowing eight to ten weeks for construction the paths themselves, excluding bridge, could be completed as early as September 2019. This proposed timetable meets the funding expenditure guidelines for both the Stronger Country Community Fund R1 and Stronger Communities (Major Fund) with funds being required to be allocated by June 2019 and fully expended by December 2019.
SUMMARY

The Riverside Walking trial in Wellington is at the point where Development Applications can be lodged. Infrastructure Strategy and Recreation and Open Space have achieved a 5km walking trial that complies with the ParkRun guidelines and also extends through to Brennan’s Way to support events such as the Wellington Challenge, the Wellington Boot and other events held at the Showground.

To commence the construction of the walking trial Council has already secured $321,000 from two grant funded sources, with $150,000 allocated to the extension of the path system to Bell Park, and $171,000 to commence work on the Pioneer Park to Brennan’s Way section. While it is anticipated that there are sufficient funds to complete the Bell Park extension, it is anticipated that additional funds will be required to enable the path to be extended through Pioneer Park to Brennan’s Way. These costs will be identified and present in another report to Council by June 2019.

Further investigations and design work is being completed on the pedestrian bridge over the Bell River in an attempt to identify the most cost effective manner to link these two recreational areas together.
REPORT: Revision of the Wiradjuri Park Master Plan

AUTHOR: Manager Recreation and Open Space
REPORT DATE: 26 February 2019
TRIM REFERENCE: ID19/159

EXECUTIVE SUMMARY

In 2014 following extensive consultation with the Aboriginal and broader communities of Dubbo, the Wiradjuri Park Master Plan was adopted. The original location for the development for this park was Wiradjuri Park, located to the north west of the Serisier Bridge.

In 2017 the Roads and Maritime Services announced that the preferred third river crossing would extend north from the rail over pass on Whylandra Street, cut through Wiradjuri Park and rejoin the Newell Highway at River Street. As the alignment for this third river crossing has not yet been finalised, and a major highway is not conducive to a restful and contemplative space, a new site was required to be found for Wiradjuri Park.

In August 2018 the Minister for Dubbo, Mr Troy Grant, announced additional funding to Western Plains Regional Council (Dubbo Regional Council) with $1.5million being identified for a Wiradjuri Tourism Experience. Council made the decision to allocate $900,000 towards a Wiradjuri Tourism Experience in Dubbo, and following consultation with the Dubbo Aboriginal Community Working Party a site at Elizabeth Park (Dubbo Regional Botanic Garden) was chosen.

A revised design for Wiradjuri Park has been completed incorporating the majority of the elements in the original master plan. The new plan was presented to the Dubbo Aboriginal Community Working Party, where it was formally endorsed.

ORGANISATIONAL VALUES

Customer Focused: Dubbo Regional Council remains committed to delivering projects identified in the Community Strategic Plan, and engaging with the community to provide positive outcomes.

Integrity: The original intent of the Wiradjuri Park Master Plan (Macquarie River) has been retained and endorsed by the Dubbo Aboriginal Community Working Party.

One Team: Council continues to work with various communities and Working Parties to provide positive outcomes to the community.
FINANCIAL IMPLICATIONS

The full development of Wiradjuri Park (Dubbo Regional Botanic Garden) has been estimated at $2,003,000. Dubbo Regional Council has received $900,000 towards this development with 80% of the Wiradjuri Park expected to be completed, that will satisfy the grant funding intent of an the establishment of a Wiradjuri Tourism Experience.

The completion of the remaining 20% of the Wiradjuri Park Master Plan will be subject to the successful application of external funding submissions.

POLICY IMPLICATIONS

There are no policy implications arising from this report.

RECOMMENDATION

1. That the report from the Manager Recreation and Open Space, dated 26 February 2019, be noted.
2. That the Wiradjuri Park Master Plan (Dubbo Regional Botanic Garden) be adopted.
3. That Dubbo Regional Council seek further external funding opportunities to enable the Wiradjuri Park Master Plan to be fully implemented.

Ian McAlister
Manager Recreation and Open Space
REPORT

In 2014 following extensive consultation with the Aboriginal and broader communities of Dubbo, the Wiradjuri Park Master Plan was adopted. The original location for the development for this park was Wiradjuri Park, located on the bank of the Macquarie River to the north west of the Serisier Bridge. The original master plan for Wiradjuri Park is shown in figure 1.

![Figure 1. Original master plan for Wiradjuri Park.](image)

In 2017 the Roads and Maritime Services announced that the preferred third river crossing would extend north from the rail over pass on Whylandra Street, cut through Wiradjuri Park and rejoin the Newell Highway at River Street. As the alignment for this third river crossing has not yet been finalised, and a major highway is not conducive to a restful and contemplative space, a new site was required to be found for Wiradjuri Park.

In August 2018 the Minister for Dubbo, Mr Troy Grant, announced additional funding to Western Plains Regional Council (Dubbo Regional Council) with $1.5 million being identified for a Wiradjuri Tourism Experience. Council made the decision to allocate $900,000 towards a Wiradjuri Tourism Experience in Dubbo with the remaining $600,000 going to Wellington.

In late 2018 a meeting was held at the Dubbo Regional Botanic Garden with representatives from Dubbo Regional Council and the Dubbo Aboriginal Community Working Party in attendance. This meeting was to determine whether the Botanic Gardens would be a suitable site to situate a revised Wiradjuri Park on. Two locations were identified as potential sites – the first area was the north east corner of the park at the corner of Birch Avenue and Royal Parade (1), and the second site opposite the Ten Pin Bowling Complex off Windsor Parade (2).
Following discussions the site off Windsor Parade (2) was determined as the preferred site due to proximity of the carpark and the new playground currently under development.

In January 2019, following approval to proceed, a revised concept Wiradjuri Park Master Plan was developed utilising the 2014 plans as a base with the intent of incorporating as many of the original elements into the new design. This approach was taken due to the extensive consultation with the Dubbo community in the development of the original plans, and the high level of community acceptance that it gained (>97%). To ensure continuity of the design philosophy from the 2014 plans the original landscape architecture firm, Moir Landscape Architecture, was re-engaged.

As part of the development of the new Master Plan cost estimates were completed through a Quantitative Surveyor. To complete the full scope of works as identified in the Master Plan is was estimated that $2,003,000 ex gst would be required. As Council has only $900,000 available this project has been broken up into a Stage 1, which will complete 80% of the landscaping works, with the remaining elements being completed as further external funding becomes available (figure 4).

On the 12 February the redrafted Wiradjuri Park Master Plan (Dubbo Regional Botanic Garden) was presented to the Dubbo Aboriginal Community Working Party. The revised plan (figure 3) was subsequently endorsed.
To enable this project to progress to full design, tender and construction the Master Plan requires approval through Council. As the original Wiradjuri Park Master Plan was developed through an extensive community consultative progress, gained an extremely high approval rating and is consistent with the development of the Dubbo Regional Botanic Garden, it shall be recommended that the Wiradjuri Park Master Plan be adopted.

Funds for this project are required to be allocated by June 2019 and fully expended by December 2019.

Figure 3. Wiradjuri Park at DRBG.
A revised Wiradjuri Park Master Plan (Dubbo Regional Botanic Garden) has been prepared and endorsed through the Dubbo Aboriginal Community Working Party. It is identified that a shortfall of $1.1 million exists in the completion of the master plan, and to allow it to progress the project has been staged.

Stage 1 will cost $900,000 and will complete an estimated 80% of the landscaping works that will satisfy the grant funding requirements of developing a Wiradjuri Tourism Experience. The remaining works can be scheduled as further external funding is identified. These later works have been positioned towards the perimeter of the new park area to reduce impacts on the park during their construction.
REPORT: 2019 Man from Ironbark Festival  
- Request for Road Closure at Molong Street, Stuart Town

AUTHOR: Senior Traffic Engineer  
REPORT DATE: 4 March 2019  
TRIM REFERENCE: ID19/216

EXECUTIVE SUMMARY

The Stuart Town Advancement Association have submitted an application to hold the annual 2019 Man from Ironbark Festival on 20 April 2019. The Festival is held within Molong Street, between Alexander Street and Bell Street. Approval is requested for a temporary road closure of Molong Street from 6.00 am to 7.00 pm. Molong Street is a local street with a detour provided around the closure via Alexander Street (partly the Burrendong Way) and Bell Street. There is no considered traffic impact on the Burrendong Way as the road network can accommodate the traffic movements through and within the village.

The application, supporting documentation and Traffic Control Plan TM 7174 are attached (Appendix 1 and 2). The Man from Iron Bark Festival has been held in previous years and there have been no issues arising. Roads and Maritime Services consent for the detour along the Burrendong Way is required.

It is recommended that approval be granted for the Stuart Town Advancement Association to implement a temporary road closure of Molong Street for the 2019 Man from Ironbark Festival in accordance with the Traffic Management Plan and conditions of approval as imposed by the NSW Police, Council and the Roads and Maritime Services.

ORGANISATIONAL VALUES

Customer Focused: Approval for the conduct of the 2019 Man from Ironbark Festival is an important event for residents of Stuart Town and visitors.  
Integrity: The approval meets all statutory requirements of other government agencies.  
One Team: Not applicable.

FINANCIAL IMPLICATIONS

There are no financial implications arising from this report.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION TO THE LOCAL TRAFFIC COMMITTEE

That Council approval be granted for a temporary road closure of Molong Street, between Alexander Street and Bell Street, on 20 April 2019 for the 2019 Man from Ironbark Festival between 6.00 am to 7.00 pm, subject to the following:

1. Consent is required from the Roads and Maritime Services for the event to utilise part of the Burrendong Way between Molong and Bell Streets as a detour with advice provided to Council. In the event that consent is not granted, the Applicant is to advise Council if the event will proceed with a re-design that excludes the use of Burrendong Way.

3. Traffic controllers and trained course marshals are to be provided at all road closure points and other locations as identified in the Event and Traffic Management Plan with restricted access only to emergency and authorised vehicles. All traffic controllers are to be specially authorised for the event with current Roads and Maritime Services certification.

4. Council’s Executive Manager Governance and Internal Control must sight a copy the current Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council, Roads and Maritime Services and the NSW Police is specifically noted to be indemnified against any action resulting from the event.

5. The applicant is responsible for the provision of all traffic control required for the event in accordance with the Traffic Control Plan.

6. The applicant is responsible for all costs associated with the placement of a public notification, a minimum of two weeks prior to the event, and advice to the residents within the closed roads advising of the 2019 Man from Ironbark Festival and the road closure of Molong Street, Stuart Town.

7. All traffic advisory signs shall be placed in accordance with the approved Traffic Control Plan and the Event and Traffic Management Plan.

8. The NSW Police’s consent and conditions for the running of the event as considered necessary.

9. The applicant is to provide Council with a signed and dated copy of the Event and Traffic Management Plan.

10. The applicant is to submit to Council all the appropriate documentation required, accepting the above terms and conditions before final approval will be granted.

11. All costs associated with implementing these event conditions are to be met by the event organiser.

LOCAL TRAFFIC COMMITTEE CONSIDERATION

This matter was considered by the Local Traffic Committee at its meeting held on Monday, 4 March 2019. The Committee had unanimous support in the adoption of the recommendation.
RECOMMENDATION

That Council approval be granted for a temporary road closure of Molong Street, between Alexander Street and Bell Street, on 20 April 2019 for the 2019 Man from Ironbark Festival between 6.00 am to 7.00 pm, subject to the following:

1. Consent is required from the Roads and Maritime Services for the event to utilise part of the Burrendong Way between Molong and Bell Streets as a detour with advice provided to Council. In the event that consent is not granted, the Applicant is to advise Council if the event will proceed with a re-design that excludes the use of Burrendong Way.

3. Traffic controllers and trained course marshals are to be provided at all road closure points and other locations as identified in the Event and Traffic Management Plan with restricted access only to emergency and authorised vehicles. All traffic controllers are to be specially authorised for the event with current Roads and Maritime Services certification.

4. Council’s Executive Manager Governance and Internal Control must sight a copy of the current Public Liability Insurance Policy for a minimum amount of $20 million on which Dubbo Regional Council, Roads and Maritime Services and the NSW Police is specifically noted to be indemnified against any action resulting from the event.

5. The applicant is responsible for the provision of all traffic control required for the event in accordance with the Traffic Control Plan.

6. The applicant is responsible for all costs associated with the placement of a public notification, a minimum of two weeks prior to the event, and advice to the residents within the closed roads advising of the 2019 Man from Ironbark Festival and the road closure of Molong Street, Stuart Town.

7. All traffic advisory signs shall be placed in accordance with the approved Traffic Control Plan and the Event and Traffic Management Plan.

8. The NSW Police’s consent and conditions for the running of the event as considered necessary.

9. The applicant is to provide Council with a signed and dated copy of the Event and Traffic Management Plan.

10. The applicant is to submit to Council all the appropriate documentation required, accepting the above terms and conditions before final approval will be granted.

11. All costs associated with implementing these event conditions are to be met by the event organiser.

Dennis Valantine
Senior Traffic Engineer
REPORT

Council has received an Event application from the Stuart Town Advancement Association, requesting a temporary road closure of Molong Street, Stuart Town between Alexander Street (Burrendong Way) and Bell Street to facilitate the running of the 2019 Man from Ironbark Festival on Saturday 20 April 2019.

The road closure will operate between 6.00 am to 7.00 pm with the festival commencing at 9.00 am and concluding at 6.00 pm. The temporary road closure of Molong Street will require a detour utilising the Burrendong Way, a regional road that will require the consent of the Roads and Maritime Services.

The Festival’s activities will operate within Molong Street, with the detour implemented in accordance with the approved Traffic Management Plan and Traffic Control Plan. Burrendong Way is not a heavily trafficked road and can be easily accommodated with the detour around the closure. The Man from Ironbark Festival has been running for several years and has a successful history.

It is recommended that approval be granted for the Stuart Town Advancement Association to undertake the 2019 Man from Ironbark Festival on 20 April 2019, as conditioned by Council and the NSW Police subject to the Roads and Maritime Services formal consent of the detour along the Burrendong Way and conditions as applied.

Appendices:
1 Draft Traffic Control Plan - Stuart Town Ironbark Festival
2 Transport Management Plan - Stuart Town Ironbark Festival
## Event Application Form

Applications should be submitted at least six (6) months prior to the proposed event. Please complete all sections and attach all relevant documentation to avoid delays in processing.

As part of your application, you are required to submit an Event Management and Risk Management Plan within three (3) weeks prior to your event being staged.

Please return completed forms and relevant attachments to: citypromotions@dubbo.nsw.gov.au

### Event Details

- **Name of event:** Stuart Town's "Man From Ironbark Festival"
- **Brief description of activities planned:** Market & Food Stalls, Exhibitors, Entertainment
- **Target audience:** family
- **Expected attendance:** 2000 to 5000
- **Dates of event:** Saturday 20th April 2019
- **Start/finish times:** 9am to 5pm

### Contact Details

- **Contact name:** Marcus Hanney
  - **Phone:** 0417 467 459
- **Position/role:** President
- **Email address:** maharney@hotmail.com

   - Ambulance notified

## Traffic and Transport Management

1. **The route or location**
   - Map attached

2. **Parking**
   - Parking organised - details attached
   - Parking not required

3. **Construction, traffic calming and traffic generating developments**
   - Plans to minimise impact of construction activities, traffic calming devices or traffic generating developments attached
   - There are no construction activities, traffic calming devices or traffic generating developments at the location route or on the access routes.

4. **Trusts, authorities or Government enterprises**
   - This event uses a facility managed by a trust, authority or enterprise, written approval attached
   - This event does not use a facility managed by a trust, authority or enterprise

5. **Impact on/of Public transport**
   - Public transport plan created - details attached
   - Public transport not impacted or will not impact event

6. **Reopening roads after missing events**
   - This is a missing event - details attached
   - This is a non-moving event

7. **Traffic management requirements unique to this event**
   - Description of unique traffic management requirements attached
   - There are no unique traffic requirements for this event

8. **Contingency plans**
   - Contingency plans attached
APPENDIX NO: 2 - TRANSPORT MANAGEMENT PLAN - STUART TOWN IRONBARK FESTIVAL

1.2 Heavy vehicle impacts
☐ Heavy vehicle impact - RIA to manage
☐ Does not impact heavy vehicles.

3.10 Special event clearways
☐ Special event clearways required - RIA to manage
☐ Special event clearways not required

4 MINIMISING IMPACT ON NON-EVENT COMMUNITY & EMERGENCY SERVICES

4.1 Access for local residents, businesses, hospitals and emergency vehicles
☐ May have minimal impact on non-event community attached
☐ This event does not impact the non event community either on the main route (or location) or detour route.

4.2 Advertise traffic management arrangements
☐ Road closures or restrictions - Advertising medium and copy of proposed advertisement attached
☐ No road closures or restrictions but special event clearways in place - advertising medium and copy of proposed advertisement attached
☐ No road closures, limitations or special event clearways - advertising not required

4.3 Special event warning signs
☐ Special event information signs are described in the Traffic Control Plans
☐ This event does not require special event warning signs

4.4 Permanent Variable Message Signs
☐ Messages, locations and times attached
☐ This event does not use permanent Variable Message Signs

4.5 Portable Variable Message Signs
☐ The proposed messages and locations for portable VMS are attached
☐ This event does not use portable VMS

If you have any complaints about the handling of your personal information, you should contact the responsible agency in writing.
Schedule 1 Form - Notice of Intention to Hold a Public Assembly

SUMMARY OFFENCES ACT 1988 - Sec 23

To the Commissioner of Police

1. MOSGUS HAMNEY
   of 84 Bell St, Stuart Town
   on behalf of Ironbank Festival Association Inc
   notify the Commissioner of Police that
   on the 20th (day of) May (month) 2019 (year), it is intended to hold
   either:
   (a) a public assembly, not being a procession, of approximately
       persons, which will assemble at Mulong St, Stuart Town
       at approximately 9 am, and disperse at approximately 6 pm.
   or
   (b) a public assembly, being a procession of approximately
       persons, which will assemble at approximately am, and at
       approximately pm the procession will commence and shall proceed

2. The purpose of the proposed assembly is

   Ironbank Festival

   (specific routes, any stopping places and the approximate duration of any stop, and the approximate time of conclusion. A diagram may be attached.)
The following special characteristics associated with the assembly would be useful for the Commissioner of Police to be aware of in regulating the flow of traffic or in regulating the assembly (note that where no is not applicable):

1. There will be ...... (number) of vehicles and/or ...... (number) of floats involved.
   The type and dimensions are as follows:

2. There will be ...... (number) of bands, musicians, entertainers, etc. which will entertain or address the assembly.

3. The following number and type of animals will be involved in the assembly:

4. Other special characteristics of the proposed assembly are as follows:

I take responsibility for organising and conducting the proposed assembly.

Notices for the purposes of the Summary Offences Act 1958 may be served upon me at the following address:

5.

TMP Approved by: --------------------------------- Event Organiser __________ Date

7 Authorisation to Regulate Traffic

Council's traffic management requirements have been met. Regulation of traffic is therefore authorised for all non-classified roads described in the risk management plan attached to this TMP.

Regulation of traffic authorised by: --------------------------------- Council __________ Date

The RTA's traffic management requirements have been met. Regulation of traffic is therefore authorised for all classified roads described in the risk management plan attached to this TMP.

Regulation of traffic authorised by: --------------------------------- RTA __________ Date

* "Regulate traffic" means restrict or prohibit the passage along a road of persons, vehicles or animals (Roads Act 1993). Council and RTA require traffic to be regulated as described in the risk management plan with the assistance provided under the direction of a qualified person.
RISK MANAGEMENT

As the event organiser you have a responsibility to ensure that your event is undertaken in a safe manner and that you minimise wherever possible harm to people or property.

Under OH&S legislation and other related law, the event organiser is obliged to ensure that reasonable steps are taken to ensure that events are conducted in a manner which provides for the safety of everyone that might be present at any time, including the general public, volunteers, staff, independent contractors and their employees and sub-contractors.

Liability arises where a person is “exposed” to the risk of injury to health and safety. It is not necessary for a person to have been actually injured but merely “exposed to risk”. Therefore, an event management plan must focus on the risk to health and safety rather than the consequences of an injury or accident.

During your planning process it is essential to develop a Risk Management Plan so potential hazards are identified early and appropriate measures are put in place to reduce the likelihood of an incident occurring.

In order to create a thorough Risk Management Plan below are the key things that you’ll need to consider:

Risk Assessment
Your event Risk Assessment should be developed in conjunction with all parties involved in the undertaking of the event including paid and volunteer staff, venues and contractors.

The Risk Assessment should identify what hazards or risks are associated with the event, and what measures are in place to reduce/eliminate that hazard/risk occurring.

Risks should also be prioritised based on the most significant risks, and a staff member allocated to the management of each risk area to ensure ownership of its management. Some specific areas of attention your Risk Assessment should consider addressing are:

- Health and Safety (identify any potential hazards that could compromise health and safety of your event visitors, suppliers and the general public)
- Financial Risks (from poor attendance, cancellations etc.)
- Reputational Risk (could you or your organisation receive poor publicity as a result of something happening at your event)
- Environmental Risk (impacts your event present the local environment)

If you are looking to hold your event on public land, Council will require a copy of your risk assessment. Council will use this assessment to assist in determining whether the land is fit for the proposed activity. It is important therefore that you consider and document all risks relevant to the event and how you propose to manage those risks.
RISK MANAGEMENT PLAN

FOR:

MAN FROM IRONBARK

20 April

Marcus Hanney
mhanney@hotmail.com
0417 467 459 (personal)
0468 004 923 (business hours)
To develop your Risk Management Plan:

**STEP ONE: Establishing the context**
- Identify the specific details of your event.
- Identify the list of all your event stakeholders and relevant contact details.

**STEP TWO: Identify risks**
- Hold a brainstorming session with your stakeholders to identify all potential risks
- Log these risks in your risk assessment matrix

**STEP THREE: Analyse risks**
- A risk is the combination of the likelihood (Table 1) and consequence (Table 2) of an incident occurring. The levels and descriptors in these tables may change and the descriptions will vary greatly depending upon your event under consideration. At the risk analysis stage risks should be evaluated with existing or known controls in place; unlike the identification phase (Step Two) where known treatments are ignored.

**STEP FOUR: Evaluate risks**
- For risk evaluation it is recommended Table 3 is used. By comparing the likelihood (Table 1) and consequence (Table 2) values, Table 3 identifies a risk rating of either:
  - Low
  - Moderate
  - High
  - Extreme
Table 1: Likelihood of Risk Criteria

- Event staff periodically cleaning all public toilets and portapotties throughout the day.
- Disabled access to toilets available at Main Park and the Hall (appropriately indicated needs to be maintained).
- Seek and trip hazards removed or treated to prevent injury (e.g., review during bauxite to identify hazards that require removal).
- Rubber mats & cable trays over cables (brief staff holders).
- Barriers placed around protruding equipment (review during bump-in).
- Changes in height and edges highlighted (review during bump-in).
- Guy ropes and stakes checked for trip hazards and are clearly marked (flags or paint marks).
- Develop emergency management plan (to be developed and provided to event staff).
- Identify slip areas.
- Isolate where possible and place warning signage (wet floor signs to be used if needed).
- Emergency ingress and egress established (identified in Traffic Control Plan).
- Create parking and pedestrian plan (parking areas marked to reserve and surrounds with sign posts), disabled parking area also clearly marked, pedestrian access only clearly identified with signage and bundling.
- Create accessibility plan (site reviewed and no issues identified, easy access to site from disabled parking area, flat ground no issues).
- Have a contingency with extra parking and pedestrian plan (Bell Street - vacant block available and can be opened if required, can accommodate 500 cars if needed. Owned by Marcus Hanney and permission granted, traffic marshall personnel dedicated to overall zone management on hand if required).

or employee of any contractor or subcontractor of the insured whilst
such employee or contractor or subcontractor or labour hire person
is acting in such capacity.

For the purpose of this exclusion as:

1. labour hire person is a person who is:
   a. employed by a labour hire provider; or
   b. contracted as an apprentice by a labour hire provider;
   and you have contracted with the labour hire provider to use the
   services of the labour hire person.

2. labour hire provider is a person or organisation that contracts
   out the services of their employees and or apprentices to you.

End of Certificate.
EXECUTIVE SUMMARY

This report deals with the proposed traffic management for Maxwell Street between Cross Street and Thornton Street Wellington as a consequence of ongoing road safety concerns with the incidence of corner cutting and lack of delineation. This section of Maxwell Street encompasses the Main Western Railway level crossing that is located in close proximity to the intersections of Cross Street and Thornton Street Wellington and facilitates the ‘Heavy Vehicle’ and detour route for major events around the Wellington CBD.

The traffic management will incorporate line marking to delineate the through travel lanes and guidance at intersections together with median separation islands to address vehicles corner cutting into the side streets.

It is recommended that the proposed traffic management for Maxwell Street and at the intersections of Cross Street, Thornton Street and Railway Avenue in Wellington be implemented in accordance with Council’s Plan TM 7279.

ORGANISATIONAL VALUES

Customer Focused: Road safety concerns will be addressed with the installation of line marking delineation of Maxwell Street and the side roads and associated median separation islands in Cross Street, Thornton Street and Railway Avenue Wellington.

Integrity: Council demonstrates its commitment to developing the road environment to be safer for all residents in the Dubbo Regional Council.

One Team: Council working with the community to deliver the project to improve road safety.

FINANCIAL IMPLICATIONS

Allocation of funds will be made available from the Minor Traffic Improvements Vote – lines and signs within the Traffic Management Function.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION TO THE LOCAL TRAFFIC COMMITTEE

That Council approval be granted for the implementation of the proposed traffic management for Maxwell Street and at the intersections of Cross Street, Thornton Street and Railway Avenue in Wellington in accordance with Council’s Plan TM 7279.

LOCAL TRAFFIC COMMITTEE CONSIDERATION

This matter was considered by the Local Traffic Committee at its meeting held on Monday, 4 March 2019. The Committee had unanimous support in the adoption of the recommendation.

RECOMMENDATION

That Council approval be granted for the implementation of the proposed traffic management for Maxwell Street and at the intersections of Cross Street, Thornton Street and Railway Avenue in Wellington in accordance with Council’s Plan TM 7279.

Dennis Valantine
Senior Traffic Engineer
REPORT

Council has received ongoing concerns with the road safety environment in Wellington in the locality of Maxwell Street and the intersections of Cross Street, Thornton Street and Railway Avenue Wellington. The concerns relate to the lack of line marking delineation and vehicles corner cutting at the side junctions. Other than the rail level crossing and intersection regulatory control there are no other facilities along the road network.

Maxwell Street has an important function in Wellington and operates as a distributor road to the residential areas in an east-west direction across the township, crossing the Mitchell Highway and Main Western Railway Line. Maxwell Street and Thornton Street are also part of the designated ‘heavy vehicle route’ used for the movement of over-size and over-mass vehicles and a detour around the Wellington CBD when the Mitchell Highway (Nanima Crescent) is closed for major events. The rail level crossing is an active (signalised crossing) with pedestrian maze and footpath access only on the northern side.

Maxwell Street is a two lane, two way road on a 32 m road reserve and 23 m carriageway and narrows to an 8 m carriageway through the level crossing. Cross Street is regulated as a ‘T intersection’ and located approximately 25 m west of the level crossing intersecting at 70 degrees to Maxwell Street and encourages sweeping right turn entry and left turn exit movements contributing to the corner cutting concerns. Cross Street is a local road with an 8 m wide carriageway with a wide entry to Maxwell Street.

Thornton Street and Railway Avenue intersect as a 90 degrees cross roads with Maxwell Street regulated with ‘Give way’ signs. The intersection is located approximately 65 m east of the rail level crossing. Thornton Street has a distributor function north-south across the township, and supports the heavy vehicle route with the movements being left in and right on exit to Maxwell Street. At this location the carriageway is 12 m wide with a 6 m parking lane on the eastern side, adjacent the residential development. Railway Avenue is a local street, on the southern side of the intersection, regulated by a ‘Give way’ control with a carriageway width of 8 m providing access to a small residential area. Maxwell Street, east of the rail level crossing, transitions east through the intersection to return to a 23 m carriageway.

Consideration has been given to improving the road safety environment along Maxwell Street at this location with delineation incorporating longitudinal and intersection line marking to define the centre lines, edge lines and turning paths with centre median separation islands to the side streets to address the corner cutting. The proposed facility at the Thornton Street intersection will be supportive of the heavy vehicle route and the over-size/over-mass vehicles that traverse the road network. Council’s Plan TM 7279, attached to the report as Appendix 1 details the proposed traffic management improvements.

It is recommended that the proposed traffic management for Maxwell Street, and at the intersections of Cross Street, Thornton Street and Railway Avenue Wellington be implemented in accordance with Council’s Plan TM 7279.
