CHAIRMAN
EXECUTIVE SUMMARY

Each month a report is submitted to Council providing an update on the significant number of projects related to the merger. It should be recalled that projects can be grouped into the following dominant streams:

- Financial and Operating Systems
- Information Technology
- Organisational Design (includes Human Resources)
- Service Review
- Communication
- Customer Service

The progress of major projects within those streams are:

**Corporate Business System Merger – Authority**

Modules such as rates, water billing, accounts receivable, applications and registers have completed the second round of testing with no significant issues noted. Council work groups are now working on “user acceptance testing.” This means working through process testing to ensure functionality of the new system in a test environment.

A major test being completed in May 2017 is the parallel payroll run. This is the running of the normal Wellington and Dubbo payroll runs in parallel with the new consolidated Civica system in a test environment. The outcome should be the same for current live systems and the new instance of Civica in the test environment.

Council has adopted Civica ‘Online requisitioning’ which reflects the new capability of the one corporate system but importantly allows for best practice controls over procurement.

This project is on track for delivery by 3 July 2017.

**Corporate Electronic Document Management Merger (HP TRIM)**

Relevant Council staff are now undertaking process testing on the new unified records system in a test environment. The first round of testing is due for completion by the end of May 2017. Results from this testing will then guide what works need to be undertaken on the system with subsequent rounds of process testing.

This project is on track for delivery by 3 July 2017.
Stronger Communities – Community Projects Rounds 1 & 2

The acquittal process for Round 1 has been progressing well. The information provided to community groups that a failure to provide acquittal documentation for Round 1 would prevent applications be considered under Round 2 has certainly created motivation to complete documentation.

Round 2 is scheduled to close on 26 May 2017 and generally there has been few questions for Council staff. Council has reminded community and recreation groups through their contact lists about the opportunity to apply.

Stronger Communities Major Projects

- Wellington Pool - Finalisation of Business Case and Cost Benefit Analysis to enable further grant applications. Following assessment of the quotations received to undertake community consultation and develop a master plan for the site the company Facility Design Group has been engaged. Community consultation is being undertaken between 15 and 26 May 2017. Concept plans for the new facility are due in early June 2017.
- Cameron Park Regional Playground - As a result of a change of positioning of the playground, due to the identification of previously unmapped services, this project has been delayed. A detailed survey, including underground services, have now been completed. The new playground site is being incorporated into the Cameron Park Master Plan that has been commissioned. As a result of the need to undertake the detailed survey and mapping of services, and the development of the master plan it is envisaged that the project completion time will delayed until December 2017.
- Dubbo Aquatic Leisure Centre – Aquatic Playground - Following a quotation process, Facility Design Group has been engaged to further develop the Dubbo Aquatic Leisure Centre master plan. This plan will incorporate the aquatic playground.
- Dubbo Regional Botanic Garden Carpark - Finalisation of construction drawings, specifications and Bill of Quantities anticipated has been completed at the time of writing. Tender documentation has commenced with a view to going to market in June/July 2017.
- Dubbo Regional Botanic Garden Playground - Final design and documentation is 95% complete. This project has been slightly delayed as a result of a community request to include a Liberty Swing into the design of the playground. This request has been accommodated into the proposed design.
- Euchareena Local Projects - Granite path quotes received and path is anticipated to be constructed during June 2017. Further discussions are continuing with the residents regarding the placement and age group requirements of the playground equipment. Difficulties in obtaining quotes for the ironbark fencing is delaying the engagement of contractors for the fencing works.
- Geurie Multicourt Facility and Playground Equipment - Following an inspection and assessment of the existing surface a decision has been made to remove the surface altogether and replace it with a concrete base. A geotechnical report has been commissioned that will enable an engineered designed slab to be constructed. To assist in offsetting the cost of the new base Dubbo Regional Council has contributed an additional $33,000 to this project.
• Moxon Park Improvements, Stuart Town - Granite path quotes received and path is anticipated to be constructed during June 2017. Difficulties in obtaining quotes for the ironbark fencing is delaying the engagement of contractors for the fencing works.

• Wellington Caves Visitor Experience - Quotation documentation is being completed to enable concept and master planning to be undertaken to inform the detailed design stage.

• Gross Pollutant Trap, Dubbo - Council has sought additional funding for the proposed Gross Pollutant Trap on the Macquarie River.

Organisational Redesign
The external recruitment for senior staff positions managed by LG Management Solutions (LGNSW) continues with the interviews being held during the week beginning 8 May 2017.

The draft Organisational structure has been released to staff for a four week consultation period that closes on 29 May 2017. A number of all staff, divisional, work group and individual meetings have been held to date. It is anticipated submissions from staff will be reviewed over a two week period after closing the date.

Salary Structure
Work is progressing on a new salary structure that is planned to be completed in time to enable new positions within the organisational structure to be filled. The new salary structure is currently on exhibition for staff consultation in accordance with Award conditions.

It should be noted that under the Award that relates to local government employees, staff who are direct or laterally transferred to a position within the new structure will maintain existing terms and conditions. Staff who obtain a new position through an internal merit based recruitment process shall accept the terms and conditions of the new position including remuneration based on the new salary structure.

Digital Two Way network
The project for an integrated digital two way network continues with the appointed successful tenderer ordering equipment during March 2017 and developing a defined project plan during May 2017. It should be recalled that such a network with allow for radio access across the LGA which is critical for normal operations and emergency management.
Customer Focused: Whilst the merger projects take place, Council is focused on providing services to the community as it would be doing prior to the merger. It should be noted that this is taking place whilst very complex tasks such as integrating budgets/revenue policies, information technology systems and asset management information collation/collection is being undertaken.

Integrity: For the significant expenditure items, Council is ensuring it is abiding by relevant and purchasing procedures. This ensures Council is seeking best value for money and is able to acquit its expenditure against the New Council Implementation Fund in line with NSW Government guidelines.

One Team: A large number of projects require differing branches of Council to work together efficiently in order for the project milestones to be met. The Corporate Business System is a very relevant example requiring cooperation across the organisation to enable project delivery by 1 July 2017.

FINANCIAL IMPLICATIONS

It should be noted the Implementation costs are funded by the NSW Government New Council Implementation Fund ($5 million). The Stronger Communities projects are funded by the NSW Government under the Stronger Communities Fund ($10 million).

POLICY IMPLICATIONS

There are no policy implications arising from this report.

RECOMMENDATION

That the information contained within the report of the Interim General Manager dated 12 May 2017 be noted.

Mark Riley
Interim General Manager
