CHAIRMAN
REPORT: Internal Audit Programme Status Report

AUTHOR: Internal Auditor
REPORT DATE: 20 February 2017
TRIM REFERENCE: ID17/169

EXECUTIVE SUMMARY

The Audit, Risk and Improvement Committee Charter stipulates that the ARIC should approve the Council’s audit programme including subsequent changes to the programme. At the time of the merger of the former Wellington and Dubbo Councils, the former Dubbo City Council internal audit programme was driven by a 3 year plan covering various areas of Council. This programme was informed with results of the Council’s risk assessments completed by management. In addition the internal audit programme also considered other priorities as determined by the Internal Auditor in consultation with management and the former Audit and Risk Management Committee.

At this stage no internal audit programme for the Dubbo Regional Council has been prepared. The Internal Auditor is currently assigned to the Service Review project team. It is expected that when risk assessments for the new council have been completed, a new 3 year internal audit programme will be developed and presented to the Interim General Manager and the Audit, Risk and Improvement Committee for approval and input.

Internal Auditor
The purpose of the Audit, Risk and Improvement Committee (ARIC)
The ARIC is an independent advisory Committee assisting the Council to fulfil its governance
and oversight responsibilities. The terms of reference for the ARIC are defined in a Charter
which is approved by the Council. The Council’s interim ARIC Charter is generally consistent
with a template suggested by the Office of Local Government (OLG) Internal Audit Guidelines
of September 2010; and updated with amendments proposed in the 2016 changes to the

The ARIC achieves its mandate by working closely with the Interim General Manager, Council
Directors, the External Auditor and the Internal Auditor. When required, the ARIC charter
provides for the engagement of other external expertise subject to approval of the Interim
General Manager and/or Council.

What is the aim of an internal audit function in the organisation?
Internal auditors are internal management consultants whose focus is to support
management’s risk management efforts.

“Internal auditing is an independent, objective assurance and consulting activity designed
to add value and improve an organisation’s operations. It helps an organisation
accomplish its objectives by bringing a systematic, disciplined approach to evaluate and
improve the effectiveness of risk management, control, and governance processes.”
(Institute of Internal Auditors).

The Office of Local Government Internal Audit Guidelines of September 2010 include an
Internal Audit Activity Charter which clarifies the terms of reference for the Internal Audit
function in Council.

What is the difference between internal and external auditors?

REPORT

A 3 year internal audit programme informed with the Council’s risk assessments will be prepared and presented to the Audit, Risk and Improvement Committee once an assessment of all the risks of the Council has been completed. In the meantime, internal audit priorities will be determined by the Interim General Manager’s requirements.
REPORT: ARIC Action List as at February 2017

AUTHOR: Internal Auditor

REPORT DATE: 20 February 2017

EXECUTIVE SUMMARY

The Audit, Risk and Improvement Committee (ARIC) of the Council requires monitoring implementation of its resolutions and agreed action plans. The Committee requires to be updated with details of implementation of recommendations and action plans arising from internal audit reviews and other activities initiated or considered by the Committee. Where action is deferred to a future date, the item is listed on the ARIC Action List until it has been resolved.

The ARIC Action List is in three parts. The first part shows a list of regular reports to the Committee. These are reports which the Committee required on an on-going basis. This can be once a year or once every quarter. There is no fixed completion date for such items. The second class of action items relate to action items which arise from the Committee requests which have a set completion date. The third class of items relates to actions arising from internal audit review reports. Agreed management action plans in response to internal audit recommendations and findings are included on the ARIC Action List and deleted once the Committee has been provided with assurance that the issue has been resolved.

FINANCIAL IMPLICATIONS

There are no financial implications arising from this report.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION

1. That the information contained within this report be noted.
2. That all items marked as completed be deleted from the list.

BACKGROUND

Where an issue has been raised by the Committee or through findings of the Internal Auditor or other assurance service providers providing information to the ARIC, it is important for the Committee to be advised of the action taken to resolve such matters. The ARIC Action List is a tool which enables the Committee to monitor the progress of implementation of the recommendations and in ensuring that outstanding matters are resolved satisfactorily.

REPORT

The detailed ARIC Action List as at February 2017 is attached (Appendix 1) to this report.

SUMMARY

REPORT: Operation Jarek - Update on Actions to Date

AUTHOR: Financial Accountant
REPORT DATE: 6 March 2017
TRIM REFERENCE: ID17/314

EXECUTIVE SUMMARY

This report provides an update to the Audit and Risk Management Committee on items that have been addressed from the initial Operation Jarek report that was adopted at the former Dubbo City Council Audit and Risk Management Committee meeting, held on 17 March 2014.

FINANCIAL IMPLICATIONS

There are no financial implications arising from this report.

POLICY IMPLICATIONS

There are no policy implications arising from this report.

RECOMMENDATION

That the information contained within this report be noted.

Helen Pelham
Financial Accountant
BACKGROUND

Following the Independent Commission Against Corruption’s (ICAC) investigation into Local Government procurement processes, a report was produced on the review, named Operation Jarek. This report included 15 recommendations on how councils could improve their operations to reduce the risk of fraud and corruption in the area of purchasing and procurement. A report was presented to the former Dubbo City Council’s Audit and Risk Management Committee held on 17 March 2014 on Council’s proposed response to the ICAC recommendations.

REPORT

Set out below are the recommendations in relation to the ICAC Report and recommended actions in response to the issues raised.

ICAC Recommendation 1 - That Council communicate to suppliers a clear set of supplier behaviour expectations and the associated consequences for non-compliance.

Actions Completed: Recommendation to put a condensed version of Council’s Statement of Business Ethics on Council’s website has been completed.

Actions Completed: New suppliers are welcomed by email with a link to Council’s website – “Doing Business with Council” page which contains all information relating to Council’s Code of Conduct and Statement of Business Ethics. An excerpt from the Statement of Business Ethics is printed on the back of all Purchase Orders.

ICAC Recommendation 2 – That Council develop a proactive and comprehensive supplier engagement framework.

Actions still to be completed – Online registration of potential suppliers. This is identified in the Procurement Roadmap as part of Item 18 (6 – 12 months) Development of a Procurement Intranet site.

Review of limits set out in Purchasing and Procurement Policy. Limits have been determined as reasonable by the Directors of each Division, and have been set in accordance with the requirements for each employee role. This will now need to be reviewed in relation to the amalgamated Dubbo Regional Council and new organisational structure.

Actions still to be completed – Strategy and timeframe for the implementation of the Risk Treatment Plans for identified risks. Part of the risk management strategy around procurement is identified as Item 10 on the Procurement Roadmap – Define System Requirements to Support Procurement Process, which will involve development of the Online Requisitioning system and Accounts Payable workflows. Implementation of Online Requisitioning has been included in the Civica Authority Enterprise Reporting System merger of the Dubbo and Wellington systems project and will go live on 1 July 2017.
Recommendation 7 – That Council analyse their procurement processes to identify points of corruption risk and take steps to improve the design of their procurement processes.

Actions Completed: A review of risks has been completed by the Manager Governance and Risk as part of the Enterprise Risk Management Review.

Review of limits set out in Purchasing and Procurement Policy. Limits have been determined as reasonable by the Directors of each Division, and have been set in accordance with the requirements for each employee role. This will now need to be reviewed in relation to the amalgamated Dubbo Regional Council and new organisation structure.

Actions still to be completed – Strategy and timeframe for the implementation of the Risk Treatment Plans for identified risks. Part of the risk management strategy around procurement is identified as Item 10 on the Procurement Roadmap – Define System Requirements to Support Procurement Process, which will involve development of the Online Requisitioning system and Accounts Payable workflows. Implementation of Online Requisitioning has been included in the Civica Authority Enterprise Reporting System merger of the Dubbo and Wellington systems project and will go live on 1 July 2017.

Target date: 1 July 2017

Recommendation 8 – That Council consider introducing e-procurement as an efficient method of controlling possible vulnerabilities in their system.

Actions still to be completed – Implement Online Requisitioning System, see comments in Recommendation 7, and implement Procedure to Pay within the Authority purchasing Accounts Payable system to streamline payment processing.

Implement automatic email of Purchase Order to supplier. This will be developed in conjunction with the Authority merger.

Target Date: 1 July 2017

Recommendation 9 – That Council review which reports are available to the managers of stores and ensure they can generate a report showing the orders placed by any individual across all cost centres.

Actions still to be completed – A report containing this information will be developed in conjunction with the implementation of the Online Requisitioning system.

Target Date: 1 July 2017
Recommendation 10 – That Council analyse inventory management systems with a view to improving controls and reducing waste.

Actions Completed – Average turnover report has been utilised as part of the Central Supply Supervisors performance appraisal for a number of years. Turnover benchmarked against industry standard of 6 times turnover per year.

Identification of items not held in store but regularly purchased throughout Council is monitored by Central Supply. Where high volumes of items are purchased, and this is expected to be a continuing occurrence, the item is then brought onto stock. Central Supply also regularly discuss requirements with its clients, and will add items to inventory when requested by clients where there will be turnover in excess of 6 times per year.

In previous years, slow moving stock has been reviewed and items sold off to reduce slow moving stock.

Actions still to be completed – Implementation of management of stock through reports on stock usage and minimum and maximum order levels.

Target Date: 31 March 2017

Recommendation 15 - That Council consider the risks highlighted by this report, namely, relational selling and gift giving, procurement processes and inventory management, and where they consider the council is at risk, add these topics to their internal audit programmes.

Actions Completed: A review of risks has been completed by the Manager Governance and Risk as part of the Enterprise Risk Management Review.

Actions still to be completed – Adding identified risks to the Internal Auditors programme.

SUMMARY

Outlined above are the actions completed to date in response to the Operation Jarek recommendations by ICAC, and actions outstanding with proposed timeframes to address the issue. A further report will be submitted to the next meeting of the Audit and Risk Management Committee detailing further actions which have been completed.
EXECUTIVE SUMMARY

Included in this report is information regarding the number of creditors paid more than $150,000 in the 2017 Financial Year 1 July 2016 to 31 December 2016, with no written contract, statistics on the number and value of invoices where the invoice date was before the order creation date and also the number of contracts where the original contract value was exceeded.

These reports have not yet been consolidated to include Wellington data, but it is anticipated that by the end of the March 2017 quarter 2017 this information will be available.

As resolved at the former Dubbo City Council’s Audit and Risk Management Committee meeting held on 16 March 2015, this report includes a breakup by Division of:

- Number of creditors paid $150,000 or more for materials with no contract.
- Number of contracts where original contract value was exceeded.

FINANCIAL IMPLICATIONS

There are no financial implications arising from this report.

POLICY IMPLICATIONS

There are no policy implications arising from this report.

RECOMMENDATION

That the information contained in the report be noted.

BACKGROUND

At the former Dubbo City Council’s Audit and Risk Management Committee Meeting of 22 March 2013, it was resolved that a report be provided to the Committee on a quarterly basis setting out:

(a) The number of creditors who are paid $150,000 or more for materials year to date (excluding payments for loan funding, superannuation and other statutory payments) reported by Division.

(b) The number of orders and percentage of total orders where creation date was later than the invoice date for the last financial year reported by Division.

(c) The number of contracts where the original contract value was exceeded for the last financial year by Division.

It was further resolved at the former Dubbo City Council’s Audit and Risk Management Committee Meeting of 16 March 2015, that information be provided to the Committee relating to breakup by Division of:

- Number of creditors paid $150,000 or more for materials with no written contract.
- Number of contracts where original contract value was exceeded.

The information requested is provided below for the 2017 financial year to 31 December 2016.

REPORT

The following report details the statistics to 31 December 2016.

(a) **Number of creditors who are paid $150,000 or more for materials and services in the financial year to 31 December 2016 with no written contract:**

    There were three suppliers paid a total of over $150,000 for materials and services in the 2017 financial year to date that had no contract in place.
(b) The number of orders and percentage of total orders where the creation date was later than the invoice date for the 2017 financial year, by Division was:

These figures show a significant improvement in terms of the percentage of orders written after the invoice date. In this regard, the 2012/2013 figure was 35.3%, 2013/2014 the figure was 29%, the 2014/2015 figure was 20% and the 2015/2016 figure was 11%. This issue continues to be a work in progress.

(c) The number of contracts where the original contract value was exceeded for the current financial year, by Division.

For the 2017 financial year to date (31 December 2016) there were 6 contracts that have been finalised. There were 4 contracts where the original contract value was exceeded.

A breakup by Division for the 2017 financial year to date is as follows:

EXECUTIVE SUMMARY

Each month a report is submitted to Council providing an update on the significant number of projects related to the merger. It should be recalled that projects can be grouped into the following dominant streams:

- Financial and Operating Systems
- Information Technology
- Organisational Design (includes Human Resources)
- Service Review
- Communication
- Customer Service

The progress of major projects within those streams are:

**Corporate Business System Merger - Authority**

Council has completed the first data upload of Wellington and Dubbo databases into the new instance of Authority. Databases contain information such as the land register, water billing, general rating, accounts receivable and applications. They have been tested with no major issues detected to date. This augers well for the continual roll out of the business system merger as the first test represented a significant project milestone on the path to ‘going live’ on 1 July 2017.

The next steps are another iteration of data upload and testing followed by business process testing.

**Standard Operating Environment**

Request for quotations were called through Local Government Procurement for the supply of 60 virtual desktops (30 in Wellington and 30 in Dubbo). These desktops will be used as an extended pilot for the rollout of virtual desktop technology across the organisation. Should the pilot be successful the general roll out of virtual desktop technology will provide greater flexibility for staff across the differing sites of Dubbo Regional Council leading to greater efficiency. The 60 virtual desktops pilot are currently being rolled out.
Digital Two Way Communication Network

Independent advisors who have overseen the tender process for the upgrade to a digital two way communications network have provided the following summary of details of the digital two way network:

“A Digital Mobile Radio (DMR) compliant, TIER 3, network should meet Dubbo Regional Council’s existing and future two way communication requirements.

A DMR TIER 3 network will offer a range of features including:

- Multiple simultaneous communications across the network.
- Mobile to mobile communications between large work groups.
- Private mobile to mobile communications between vehicles.
- Private communications between office/depot and vehicles.
- Automatic Vehicle Location (GPS Tracking).
- Integration of SCADA and Telemetry services.
- Emergency (duress) call.
- Lone worker function.
- Man down function.
- Flexibility and expandability.
- Open to use by any other brands of DMR compatible radios.”

It should be noted there is an opportunity to make Council’s infrastructure available to other government agencies for a fee.

Geographic Information System (GIS)

Wellington cadastral and asset data (stormwater/sewer/water) has been migrated to a consolidated GIS platform. This enables whole of organisation access to GIS based information creating efficiencies for business units working across the Local Government Area.

Harmonisation of Council policies

As a newly created entity Dubbo Regional Council needs to review former policies of Dubbo City and Wellington Councils. Whilst many under review are management policies not requiring the formal resolution of Council, they represent a significant body of work, particularly by the Human Resources team to ensure the organisation and its people understand and operate under the same rules and processes. In this regard approximately 17 new policies have recently been adopted that supersede policies of the former Councils.

Asset Management

Data for transport (roads/footpaths/cycleways etc.) and drainage imported into Authority system and models updated to determine renewal works. Water and Sewer data collation is being undertaken by Loftus for import into the Pipepak asset data system. Information regarding buildings and open space/recreation assets is scheduled for collection in coming
months. This body of work is on track to enable the adoption of consolidated asset management systems and asset management plans by October 2017. Asset management data is critical to understanding the long term financial position of Dubbo Regional Council.

Organisational Redesign

Staff information sessions have been held across the organisation from 15 March 2017 up until 21 March 2017 in regard to changes in the senior staff structure including changes in responsibility for individual senior staff positions. As put before Council at its Extraordinary meeting held 20 March 2017, recruitment for senior staff positions shall be undertaken with the assistance of LG Management Solutions and are proposed to commence late March 2017.

Whilst recruitment is being undertaken for senior staff positions, work will continue with the University of Technology Sydney to develop a draft organisational structure below senior staff level. The results from the service review project, including staff and manager submissions, and analysis undertaken by consultants are being utilised in this regard. Key areas for change relate to:

- Aligning processes where they can be used for like functions;
- Separating responsibilities for services which are now significantly larger in scope such as roads and waste;
- Achieve economies of scope and scale under a new structure.

Stronger Communities Fund – Major Projects.

Council is working towards utilising mapping systems on the Council website so that the community members can seek updates on each Stronger Community Fund project at a time that suits them via smartphones or desktops etc. Staff are at the initial stages of this project and are working on appropriate GIS and IT system interaction to create an easy to understand display.

Specific project information for some Stronger Communities Fund projects are listed below:

- Wellington Pool - Expressions of Interests were called and closed on 21 February 2017 for the Community Engagement and Master Plan Development of the Wellington Pool. 17 submissions were received and six (6) companies have now been invited to provide a quotation which closes 4 April 2017. A Business Case and Cost Benefit Analysis for the redevelopment of the Wellington Pool has been commissioned through an external contractor at a cost of $17,000. This has been commissioned to assist applications aiming to secure additional funding for the project.
- Moxon Park Stuart Town – Two meetings have been held with the community to confirm scope of projects and outcomes. Quotations are currently being sourced for all components of this project and these are expected to be received within two weeks. This project is planned for completion by 30 June 2017.
- Wellington Caves Visitor experience – this project is at the master planning stage. This is an important element to obtaining further grant funding to add to the $2.5 million
Stronger Communities Funding.

- Cameron Park Regional playground – documentation is being developed to enable tenders to be advertised. At the time of writing staff are working towards having this playground installed prior to 9 August 2017 – in time for the Wellington Bicentenary celebrations.

- Elizabeth Park, Dubbo Regional Botanic Garden regional playground - documentation for tender process 80% completed and is expected within a couple of weeks followed by the publicly advertised call for tenders. It is planned for this project to be completed prior to Christmas 2017.

- Geurie multi court facility - Three (3) meetings have been held with the community to further define the scope of project. As 28 February 2017 the Geurie community is on board and excited about the improvements to the recreational facilities at the village. Investigation into the site specific requirements regarding renewing the old tennis court surface and subgrade have commenced.

- Installation of Gross Pollutant Trap at West Dubbo Main Outfall – A grant application has been made for the additional $100,000 required for the project under the “Restoration and Rehabilitation Program.” This project will not commence before July/August 2017 once the outcome of the additional grant application is known.

ORGANISATIONAL VALUES

Customer Focused: Whilst the merger projects take place, Council is focused on providing services to the community as it would be doing prior to the merger. It should be noted that this is taking place whilst very complex tasks such as integrating budgets/revenue policies, information technology systems and asset management information collation/collection is being undertaken.

Integrity: For the significant expenditure items, Council is ensuring it is abiding by relevant and purchasing procedures. This ensures Council is seeking best value for money and is able to acquit its expenditure against the New Council Implementation Fund in line with NSW Government guidelines.

One Team: A large number of projects require differing branches of Council to work together efficiently in order for the project milestones to be met. The Corporate Business System is a very relevant example requiring cooperation across the organisation to enable project delivery by 1 July 2017.

FINANCIAL IMPLICATIONS

Major expenditure items have utilised the New Council Implementation Fund provided by the NSW Government.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION

That the information contained within this report be noted.

Mark Riley
Interim General Manager
EXECUTIVE SUMMARY

For more than 30 years Council, in partnership with the Western NSW Local Health District (LHD) – Women’s and Children’s Services (WCS), has provided a free monthly immunisation clinic for the residents of Dubbo. In recent years, the number of children attending the clinics has fallen significantly due mainly to immunisation services provided by private medical practices and the LHD WCS. It is now considered that Council’s support of this service is no longer required to provide adequate immunisation service access for Dubbo residents. Council can transfer its support of the free clinic service to the sole responsibility of the LHD WCS without adverse impact on the overall levels of immunisation within the community.

ORGANISATIONAL VALUES

Customer Focused: Whilst the transfer of support for a free immunisation clinic is a change in Council’s role in one particular community health service, the release of staff resources to provide other services not provided by the private sector will have an overall positive result for the Dubbo Regional Council community.

Integrity: The provision of immunisation is not a core local government role but rather that of Western NSW LHD. Council is not therefore abrogating its core responsibilities by transferring the free immunisation clinics across to the sole responsibility of the LHD.

One Team: Not applicable.

FINANCIAL IMPLICATIONS

The 2016/2017 budget forecast revenue of $7,500 and expenditure of $40,798 for immunisation services. Council receives $6 for each child immunised which is half shared with Western NSW LHD meaning Council receives a net $3 per child. Should the immunisation service be transferred to the LHD there would be a net financial saving to Council of $6,238. The major costs for immunisation are staff salaries which would still be incurred by Council but the staff resources would be redirected to provide better service to the community in relation to other core Council services.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION

1. That Council’s free monthly immunisation clinics be transferred to Western NSW Local Health District – Women’s and Children’s Services effective 30 June 2017.
2. That the Western NSW Local Health District be advised of Council’s decision in this matter.
3. That a community publicity campaign be undertaken to inform the community of the transfer of this service and the alternative placement of future immunisation clinics and the available alternative immunisation service providers.

The graph below shows annual attendance rates since 2009 and the continual decline over that period.
There are only thirteen (13) Councils in NSW providing immunisation clinics and five (5) of these are located in rural/regional areas. The former Wellington Council did not hold clinics. Should Council wish to continue to provide immunisation clinics then it should consider the harmonisation of services and providing additional funds to hold clinics in Wellington. It is of interest to note that Wellington’s childhood immunisation rates are on par with Dubbo’s rates.

Some of the reasons which could account for the down turn in attendances at Council’s clinics are the alternative providers of immunisation are now actively promoting their services to parents. These alternative providers include doctors and the Dubbo Primary and Community Health Centre in Hawthorn Street. The Health Centre will conduct free drop-in immunisations at the Child and Family Health Clinic Rooms (23 Hawthorn Street, Dubbo) every Monday from 3 pm to 4.30 pm from July 2017. The Centre is drop-in with no appointments necessary. The Centre also conducts outreach immunisation clinics on a weekly basis (duration 4 hours per clinic) to Allira Child Care Centre, Buninyong Primary School and West Dubbo Primary School during school terms. Dubbo birth rates have been steady and so a declining birth rate is not a reason for declining clinic attendance.

A meeting was held on 11 March 2017 between Council staff and representatives of Western NSW Local Health District to discuss the matter. It was consensually agreed that there was sufficient capability within Western NSW LHD WCS for Council to transfer its support in providing free monthly immunisation clinics to the LHD without an overall adverse impact on immunisation levels.

Given that immunisation is not a core role of local government significant Council staff and financial resources are provided to organise and conduct the immunisation clinics. Council’s ground floor conference rooms are occupied for a full day every month to conduct the clinics and therefore unavailable for other activities. Dubbo Regional Council does not and has no plans to extend immunisation clinics to Wellington; there are adequate alternative immunisation providers in the private and public sector and Council has other core priority areas for staff resources. It is recommended that Council transfer its support for immunisation clinics to Western NSW LHD WCS effective 30 June 2017. It is further recommended that the Western NSW LHD be advised of Council’s decision in this matter and that a community publicity campaign be undertaken to inform the community of the transfer of this service and the new location of the clinic as well as alternative local immunisation service providers.
EXECUTIVE SUMMARY

Dubbo Regional Council wishes to apply for $350,000 from Infrastructure NSW – Cobbora Transition Fund that was originally allocated to the Wellington Business Service for the refurbishment of facades within the Wellington CBD. If successful in our application these funds would be reallocated to “Cameron Park Reinvigoration of a Regional Park” project in a concerted effort to restore the heritage and amenity values of the park and to assist in increasing the level of economic activity within the CBD.

Advice has been received from Infrastructure NSW that for Council to apply for the reallocation of the $350,000 from the Cobbora Transition Fund, a resolution of Council is required.

ORGANISATIONAL VALUES

Customer Focused: Cameron Park is located adjacent to the Wellington Central Business District. These funds will go towards enhancing the park that will provide intergenerational benefits to the community and visitors.

Integrity: Funding that was originally allocated to the Wellington community will be retained within the town to improve facilities.

One Team: The project of restoring Cameron Park is associated with the Namina Crescent Beautification Stage 3 project. This project will utilise the skills and knowledge across a number of Divisions to provide a positive return to the community.

FINANCIAL IMPLICATIONS

There are allocated funds to commence restoration works in Cameron Park, which along with the $350,000 from Infrastructure NSW – Cobbora Transition Fund, will see the completion of the restoration works.

POLICY IMPLICATIONS

There are no policy implications arising from this report.
RECOMMENDATION

That Council submit the proposal for reallocation of the Infrastructure NSW Cobbora Transition Fund of $350,000 to the Cameron Park – Reinvigoration of a Regional Park project.

Ian McAlister
Director Parks and Landcare Services
BACKGROUND

With the decision of the NSW State Government not to proceed with the development of the Cobbora Coal Project $20,000,000 was allocated to compensate the four local government areas (LGAs) that have been disadvantaged. The four LGAs being the former Dubbo City Council, the former Wellington Council, Mid – Western Regional Council and Warrumbungle Shire Council.

To oversee the $20 million compensation program the Cobbora Transition Fund was established. The fund was divided into 2 streams with each of the four Councils being allocated $1 million initially from the fund. The remaining $16 million was allocated to a range of projects over the four Local Government Areas on a merit based assessment.

One such project that was successful in securing funds was the refurbishment of facades within the Wellington CBD project. This application was submitted by Wellington Business Service and was awarded $350,000. The aim of the project was to engage with the TAFE and local service providers to deliver a 26 week pre-apprenticeship course for locals. Unfortunately this project did not proceed and the $350,000 was returned back to Infrastructure NSW – Cobbora Transition Fund.

A draft Cameron Park master plan has been developed to commence restoration works. These works are required due to ageing infrastructure, loss of amenity and heritage values and its prominent position opposite the Wellington Central Business District.

For Dubbo Regional Council to apply to Infrastructure NSW for the reallocation of these funds it has been advised that a resolution from Council is required.

REPORT

Located in the CBD of Wellington is Cameron Park. The park’s history dates back to 1859 where following lobbying from the Wellington Improvement Society five acres was set aside between the winding Bell River and the town’s main street. It was officially proclaimed in 1882 as Bell Park.

The park was laid out in 1909-10 by Andrew Alfred (A.A) Patterson’s design, based on Princes Street Park in Edinburgh, Scotland. It was renamed Cameron Park in 1910 to honor the Mayor, Ald.Thomas Cameron for his energetic work in establishing it.
Cameron Park has typical ingredients of ‘second wave’ Victorian era parks that includes a formal layout, wide and generous strolling paths, ample seats in shady spots, a band rotunda, sculptures and monuments such as World War 1 memorials and weapons, and formal gate ways. The Bell River that runs along the western edge provides a beautiful back drop to park and provides a cooling effect to the immediate area, and interest through light and sound as a result of water movement.

A major feature of the park is the war memorial, with a sculpture by Marrickville sculptor Gilbert Doble (dedicated in 1933).

Past descriptions of the park include “marvelous towering trees, giving welcome summer shade and cool.” (Stuart Read). While the formal layout (paths) has remained largely intact over the years, the infrastructure within the park has declined to such an extent that it now detracts from its appeal and usability. For example: the rotunda (figure 2), that is still used for bands and festivals today is in very poor condition as figure 3 below illustrates. Temporary repairs have been put in place to enable safe use of the facility to continue.
Many of the original trees have also been removed over the years, with the few original trees now in advanced state of decline (eg: the Bunya Pine in the background in figure 4).

Replacement tree planting has occurred over time however it appears to lack any formal structure that is paramount to the philosophy of Victorian era parks.

To commence the restoration of Cameron Park Dubbo Regional Council has allocated funds for the following works:

- Amenity Renewal (Restricted Asset) $292,000
- Playground renewal (Stronger Community (Major Projects)) $280,000

$572,000
This report proposes to approach Infrastructure NSW and request consideration in having the $350,000 that was initially allocated to the Wellington Business Service for the Refurbishment of facades within the Wellington CBD project given back to the Wellington community to assist in the restoration of their park.

If successful with the funding request the $350,000 would go towards the establishment of the plaza fronting Namina Crescent (Stage 1), refurbishment of the rotunda, the commencement of the planting and establishing the avenues (Liriodendron and Warne Street connections (Stage 4) and commencement of works to formalize the tiered seating in the sunken garden (Stage 5).

This would provide Dubbo Regional Council $922,000 that would be spent directly on Stages 1–5 of the project. Further expenditure would be sought through rate and non-rate revenue streams as they are identified to complete the project. Cost estimates are as follows:

Cameron Park has been for many years the premier park for the Wellington community. The park is now at the point where intervention is required. Without this intervention the cost of returning the park to its former status will continue to increase, with the current conditions of the rotunda and toilet facilities provided as examples.

Similarly, a window of opportunity still exists to transition the declining park trees without significant negative impacts to the overall amenity of the park through the implementation of a replanting program.

To assist in funding the Cameron Park – Reinvigoration of a Regional Park it is recommended that Council supports the submission that has been prepared for Infrastructure NSW.
