MESSAGE FROM THE MAYOR

2020 has been a year that no one could have predicted and locally the Dubbo Region’s Economy has been affected by many different factors arising from the COVID-19 Pandemic. Compulsory Industry closures, reduced discretionary spending, changing consumer habits including increased online purchasing and bulk-buying have all affected the dynamics of the local business environment. Different industries have been impacted in different ways; some of our businesses in the Dubbo region have had to deal with supply chain restraints due to restrictions on borders, while others have had to deal with issues such as a shortage in the supply of skills and labour due to increased government financial assistance. Others are seeing opportunities arise from border closures, and the increased consumer push to buy local – and trying to maintain customer expectations of product and service whilst remaining COVID-safe and compliant.

The real short-term and long-term impacts on the local economy are yet to formally realised and understood, however, it is clear parts of our local economy are being majorly affected and Council needs to be flexible and responsive in provision of activities that could provide relief and support to our local community and see us all through what is shaping up to be the first Australian recession in 30 years.

I would like to thank those members who gave their time to support the development of this Strategy through their involvement in the Dubbo Regional Economic Recovery Taskforce. Through consultation with these representative industry groups, this Strategy has delivered the actions that will see the Dubbo Region recover strong and resilient.

Mayor of the Dubbo Region
Councillor Ben Shields

TOURISM OPERATIONS REPRESENTATIVE
IN BRIEF

Retail

- National sales: March 2020 increased by 8.5% compared to April 2020.
- Online sales: April 2019 vs. April 2020, 80% increase.

Tourism

- Revenue hit: A 15% net backwards shift is expected for the financial year 2019/2020.
- Passenger numbers: April 2019 vs. April 2020, 98% drop.

Employment

- Out of the top 10 employing industries in the Dubbo Region, 6 were not directly affected by a change in demand for employment or compulsory closures.
- Job advertisements dropped in April and May for the Dubbo Region.
- Rising unemployment and unstable employment security is expected to cause households to save more and reduce spending on discretionary items, such as holidays.

The Region managed to sustain very low levels of unemployment over a long period of time, considerably below the State and National average. This has also created an economic growth barrier, namely severe skills and labour shortages. With the significant construction pipeline in the Region, construction related opportunities will be in abundance.

- Estimated unemployment rate: March 2020 2.30%, April 2020 3.90%.

Total value in capital works projects: $5.7B.
OVERALL OBJECTIVE

The Dubbo Region responds to economic challenges and opportunities as a result of COVID-19 and rebounds quickly as a strong, resilient economy.

How this will be achieved...

DESTINATION MARKETING AND VISITOR ATTRACTION

Vision for success: Offset the challenges and embrace the opportunities presented to the domestic travel market from COVID-19

1.1 Increase the total visitor spend in the Dubbo Region, measured off an average of the previous two year spend for the FY 20/21
1.2 Increase visitor attraction in the Visiting Friends and Relatives (VFR) market, empowering locals to be part of the attraction campaigns, lifting Regional pride in the destination’s offering and celebrating ‘home town heroes’
1.3 Support Tourism attraction visitor accommodation and hospitality industry in delivery of PR activity and marketing campaigns to both locals and targeted visitor markets
1.4 Build brand recognition and isolation of Dubbo in targeted markets through targeted PR activities

DUBBO REGION BUSINESS AND INDUSTRY DEVELOPMENT AND ATTRACTION

Vision for success: Offset the challenges and embrace the opportunities of COVID-19 to position the Dubbo Region as a centre for job enabling infrastructure and proactive business development

2.1 Position the Dubbo Region as a preferred destination for identified industries that grow regional capacity and employment
2.2 Attract and develop industry enabling infrastructure through strategic plans and policy that are aligned to best support provision of grant related funding and partnerships
2.3 Industry value add opportunities are explored and acted upon for major projects to maximise local procurement and employment

DUBBO REGION PURCHASING BEHAVIOUR FROM CONSUMERS AND FROM BUSINESS TO BUSINESS

Vision for success: Offset the challenges and embrace the opportunities of COVID-19 retail landscapes to secure local purchasing practices within the business to business supply chains of the Dubbo Region and enhance the buy local behaviours of Dubbo Region's residential and service area communities

3.1 Secure commitment from Council and large scale private business to support local supply chains through local procurement
3.2 Engage and educate business on the ways that they can attract work from Council and large government packages available within the region
3.3 Engage local community and regional service community of the Dubbo Region to commit to buying locally

JOB RECOVERY AND WORKFORCE DEVELOPMENT

Vision for success: Offset predicted recessional impact economic impact of COVID-19 on Dubbo Region’s economy, through continued low levels of unemployment and strong skills development that supports future identified industry growth and focus on labour force impacted by COVID-19

4.1 Support affected industries with low recruitment engagement, high recruitment fatigue to attract people back into the job market
4.2 Review training and workforce upskill opportunities for local business and labour force to diversify
4.3 Leverage opportunities presented by COVID relating to space and infection rates to attract skilled workers to relocate themselves and their families to our region to minimise/avoid FIFO

INDUSTRY ENGAGEMENT

Vision for success: Strong and capable businesses and Industry which maximise and embrace the opportunities presented from COVID-19 and infrastructure investment now and in the future

5.1 Increase local industries capability and capacity to maximum local participation in major infrastructure projects
5.2 Support industry alliances to facilitate industry collaboration and cooperation between businesses in the region to create a competitive advantage
5.3 Secure commitment from Council to support capacity building and skill development through procurement policies focused on cultivating Dubbo first
5.4 Address skills gaps through the attraction of in demand skills from outside the LGA as new residents to the Dubbo Region

CBD ACTIVATION AND RE-IGNITION

Vision for success: The Dubbo Region CBDs react to impacts, opportunities and restrictions of COVID-19 to create a safe, full and viable mix of business and commercial entities that employ people and attract spending

6.1 Offset the decrease in foot traffic and restrictions on indoor crowds as an impact of COVID-19 by responsibly encouraging local spend within the CBD’s through innovative programs and communication
6.2 Develop Infrastructure to Support Existing CBD businesses and attract new operators in new COVID-Safe regulations
6.3 Maintain commercial viability of the Dubbo and Wellington CBD’s through the attraction and retention of major national stores that employ local people

How outcomes will be reported...

Monthly updates: Informal report
Measurements: Quarterly data
Activity outcomes
DESTINATION MARKETING AND VISITOR ATTRACTION

What do we know about tourism and visitation in the current COVID-19 climate?

People planning their holidays are looking for...

- Safety
- Hygiene and cleanliness
- Wide open spaces
- Disconnection from screens, reconnection with friends and family
- Explore their own communities before heading too far from home (local cafes and eating out high on the list!)
- Bookable products and packaging

Research shows that people are currently considering domestic holidays to...

- The coast; bushfire is still more impactful in visitors’ minds than the drought and with drive the preferred transport it’s less travel time for large populations – BUT, it can be seen as crowded and therefore unsafe.
- Regional escapes are still ahead of a City escape, 33% of potential visitors are considering inland regional holidays looking for space and less people (Source: University of QLD April 2020).

The Great Big Adventures 2018 marketing campaign research shows that families who spend more time in the Region (3-5 days) have a better experience and are more likely to come back and share their experience, than those who stay only 1 to 2 days.
High yield visitors who get value from Dubbo Region product promise...

**Families:**
Traditionally the highest yield market for visitation to the Dubbo Region. Mum has typically been considered the key decision maker for family holidays, with kids and partners providing pester power and reinforcement for decision making.

**Visiting Friends and Relatives (VFR):**
The largest demographic of this segment is over 55, and whilst do not spend as much on accommodation, they spend on experiences, food and entertainment. The most popular travel times are December and January with a minor peak around Easter (Source: Tourism Research Australia).

**Over 55s:**
Burgeoning market as more Baby Boomers are retiring with a larger disposable income and a healthy appetite for travel.

**Surrounding Region:**
Typically regional neighbours spend the most money annually and regional visitation has great value to the market as a whole. They may be spending on household and professional services during some of their visits to the Region, getting them to stay as a tourist is a great opportunity.

**Geographic insight:**
The largest high population destination for inward spend in the Dubbo Region is currently Newcastle.
When do visitors currently come to the Dubbo Region?

- School holidays
- Long weekends

What are the opportunities for the Dubbo Region?

- Reconnection to our service area
- Leveraging local disposable income spend
- Corporate events research shows people want the corporate connection - but still space
- Attraction of VFR markets, “invite your mates out”
- Media mix push digital
  - Research shows massive increase in time spent researching online
- Reconnection to existing geo-targets:
  - Including service centre and typical visitation markets, i.e. Newcastle, Canberra, “welcome back!”
- Talk to some new markets:
  - Wagga Wagga, Northern Sydney
  - “Your adventure awaits in the Dubbo Region”
The Great Big Adventure Pass presents an attractive option for instant conversion. The Pass is a multi-ticket with a 20% discount to Taronga Western Plains Zoo, Old Dubbo Gaol, the Royal Flying Doctor Visitor Experience and the Wellington Caves (unavailable as part of the Pass due to COVID-19 restrictions as at 31/07/20). The Pass was created and is managed by the 4 partnering attractions with Dubbo Regional Council driving marketing engagement and development. Passes are currently available for purchase via the website only.

There exists a long standing strategic partnership between Dubbo Regional Council and surrounding Councils in the 'Great Western Plains', namely Narromine, Gilgandra, Warrumbungles, Coonamble and Warren. This partnership was designed as a hub and spoke model, capitalising on the geographic location of Dubbo and the Great Western Plains counterparts, all of which are situated between 35 minutes to 1 hour 50 minutes’ drive of Dubbo via major highways and well maintained roads. Using collaborative marketing to draw visitors into Dubbo as the anchor location and Taronga Western Plains Zoo as the hero attraction and then extend their stay in the neighbouring Council areas.

Dubbo Regional Council's marketing strategy is underpinned by the Destination Partnership Program which is ordinarily an 18-month program giving local businesses, accommodation operators and attractions the opportunity to be included in strategic and targeted marketing campaigns reaching the visitor, event and new resident markets. The Partnership Program was designed so Partners receive scaled benefits commensurate to their investment in the Program and destination marketing, allowing both small and large operators to participate and benefit and providing support to businesses who support overall destination marketing. It was decided in May 2020 in response to COVID-19 to extend the current Program by 6 months to ensure there is ample time to promote partnering businesses when they need it most.
# DESTINATION MARKETING AND VISITOR ATTRACTION

**Vision for success:** Offset the challenges and embrace the opportunities presented to the domestic travel market from COVID-19

## OBJECTIVES

1. **Increase the total visitor spend in the Dubbo Region, measured off an average of the previous two year spend for the FY 20/21**

2. **Increase visitor attraction in the Visiting Friends and Relatives (VFR) market, empowering locals to be part of the attraction campaigns, lifting Regional pride in the destination's offering and celebrating ‘home town heroes’**

3. **Support Tourism attraction visitation, accommodation and hospitality industry in delivery of PR activity and marketing campaigns to both locals and targeted visitor markets**

4. **Build brand recognition and visitation consideration in targeted markets through targeted PR activities**

## OBJECTIVE | ACTION | MEASURE | TIMING | RESPONSIBLE
---|---|---|---|---
1.1 | Leverage multiple night stays in the Region through development and marketing of multi-night partnership packages with Great Western Plains Partners capitalising on the opportunity and increased attractiveness of travel post COVID-19 to Regional NSW | Tourism Market Report - Accommodation | March 2021 | • Dubbo Regional Council  
• Great Western Plains Partners  
• Destination Network Country and Outback  
• Destination New South Wales

1.2 | Marketing of Great Big Adventure Pass (GBAP) as a conversion and commitment tool for Dubbo Region Visitiation to promote packaged Regional experiences as an alternative for holiday makers who traditionally chose destinations which now have safety concerns/perceptions due to crowds | Sales of GBAP  
Tourism Market Report - Tourism Operations  
Engagement of local businesses to promote sales and utilise the GBAP for market focused competitions and rewards | June 2020 - July 2021 | • Great Big Adventure Pass Partners  
• Dubbo Regional Council  
• Destination Network Country and Outback  
• Destination New South Wales

1.3 | Lobby and advocate for commitment from the State and Federal Government and their agencies for specific support to Regional marketing for destination activity to boost industry post COVID-19, Drought and Bushfire impacts | Communications between offices recorded. Seek grant funding where available to fund collaborative destination marketing opportunities. | Ongoing | • Combined development and delivery responsibilities across all members and organisations of the Taskforce

1.2 | Creation and delivery of focused VFR marketing to people that live in Regional areas that are traditionally spending in the Region to leverage longer and tourism focused stays | Change in spending measured through Spendmapp Data | Term 4 marketing for off peak spend and Christmas consideration | • Dubbo Regional Council to develop and deliver

1.2 | Creation and delivery of locally focused VFR marketing, encouraging local people and industry to invite their friends and family to stay in the Dubbo Region capitalising on perceived safety of home stays and connection to family post COVID-19 | Change in spending measured through Spendmapp Data  
Local conversion tool (My Dubbo Region Card) uptake (MyDubbo MyShout) | In market September 2020 and June 2021 | • Dubbo Regional Council to support, actions delivered through Dubbo Chamber of Commerce and Wellington Business Chamber

1.3 | Supporting visitation, accommodation and hospitality through at least four public relations activities delivered to target markets through mainstream media | Audience reach measurement | June 2020 - July 2021 | • Dubbo Regional Council  
• Taronga Western Plains Zoo  
• Destination Network Country and Outback  
• Destination New South Wales

1.3 | Leverage local business networks and personalities for locally focused PR to help build morale of local business working alongside COVID-19 restrictions | Audience reach measurement and content engagement | In market December - May | • Dubbo Chamber of Commerce  
• Wellington Business Chamber

1.4 | Support Dubbo Region brand recognition through at least four public relations activities delivered to target markets through mainstream media from within the Region | Audience reach measurement | June 2020 - July 2021 | • Dubbo Regional Council  
• Taronga Western Plains Zoo  
• Destination Network Country and Outback  
• Destination New South Wales

1.4 | Leverage niche visitation experiences that have developed and increased in popularity as an outcome of COVID-19 related perceptions such as cycling, to communicate specifically with new target markets via targeted PR channels | Dubbo Region to feature in two additional targeted channels leveraging itinerary activities specifically tailored to niche markets | June 2020 - July 2021 | • Dubbo Regional Council  
• Destination Network Country and Outback  
• Destination New South Wales
BUSEINESS DEVELOPMENT AND ATTRACTION

What do we know about business and industry in the current COVID-19 climate?

**Australian consumers are...**

- Preferring Australian made products
- Consumer conscious wanting to know the story of where their money is going
- Not interested in celebrity endorsement – they want authentic experiences from real people
- Wanting reliability of consumables, food supply and affordability

**Australian businesses are looking for...**

- Onshore processing
- Low overheads
- Incentives
- Easy paths for establishment through to operation

**The Dubbo Region can offer advantages for business through...**

- Decentralisation
- Digital connectivity (Gig State Project)
- Transport connectivity (road, rail and air)
- Low overheads
- Stable power source (Central West Renewable Energy Zone / Green energy farms / trans-grid substation)
- Skilled workforce
The Dubbo Region has strong supply chain advantages with:

- Strong industry and government support for event collaboration across many industries
- Strong construction and manufacturing industry supply chains
- Commitment from government and private investment for enabling infrastructure including gig state, NBN, power-grids, transport and alike

What are the opportunities for the Dubbo Region?

- Increase in online spending and market expansion
- Biggest export currently is manufacturing
- Leverage opportunities from Government to compete with NSW SAP and LAP developments
- Leverage Council owned industrial land development
What are the challenges in the Dubbo Region?

- Close proximity of Special Activation Precinct (SAP) developments
- Low unemployment can be seen as lack of ready workforce
- Competitive nature of business with Regional Relocation Incentives from State Government being regionally agnostic
- Lack of regional business identity focused on industry, opportunity for the Dubbo Region to be a point of difference to other NSW regional locations
# DUBBO REGION BUSINESS AND INDUSTRY DEVELOPMENT AND ATTRACTION

**Vision for success:** Offset the challenges and embrace the opportunities of COVID-19 to position the Dubbo Region as a centre for job enabling infrastructure and proactive business development

## OBJECTIVES

<thead>
<tr>
<th>OBJECTIVE ACTION</th>
<th>MEASURE</th>
<th>TIMING</th>
<th>RESPONSIBLE</th>
</tr>
</thead>
</table>
| 2.1 2.1.1 Undertake market research to determine clear target industries best suited to Dubbo Region in the wake of opportunities presented by COVID-19 international restrictions | Industry analysis conducted that identifies suitable industries that may be best suited for the Dubbo Region | December 2020 | • Dubbo Regional Council  
• NSW Government Department of Regional NSW (Invest in Regional NSW)  
• Regional Development Australia - Orana |
| 2.1.2 Develop and distribute a Dubbo Region Economic Prospectus with clear market focus for attracting identified industries | Digital prospectus developed and distribution collated  
Launch to include the backing report regarding gap analysis | Launch January 2021 | • Dubbo Regional Council  
• NSW Government Department of Regional NSW |
| 2.2 2.2.1 Support the priority projects identified for grant funding with the development of small ‘go to’ business case studies to leverage political discussions between agencies on the benefits of Dubbo Region Projects | Determinations made by Council’s Executive Leadership Team and Regional Development Australia - Orana Board on priority projects for advancement of the Region  
Creation of ‘go to’ business case studies priority infrastructure projects across short term (1-2 years) and long term (3-5 years) implementation with distribution to appropriate agencies made to leverage opportunities for funding as they are presented | June 2021 | • Dubbo Regional Council  
• Regional Development Australia - Orana |
| 2.2.2 Support local community and business operations to proactively apply for grants that can offset challenges or take advantages of opportunities which have been a result of COVID-19 impacts | Allocation of Economic Development staff one day a fortnight to facilitate direct enquiries from businesses or community groups relating to grant funding or opportunities  
Provide support to generalised groups in a public setting engaged with funding bodies and other supporting groups to give a rounded approach to funding processes and best practise for success  
Investigate the possibility of grant related funding from Dubbo Regional Council to small business located within the Dubbo Regional Council Local Government Area, for example, targeted small business grants | October 2020 | • Dubbo Regional Council  
• Regional Development Australia - Orana  
• State and Federal Government |
| 2.3 2.3.1 Attract new businesses utilising the opportunities presented by Regional localities for space and lower infection rates to support the retail and business expansion of the Dubbo Region | Proactive targeting of identified businesses and companies that can add to the commercial viability of the Dubbo Region  
Personalised contact from staff and dispersal of investment collateral supporting Dubbo Region relocation opportunities for business and commercial property acquisition and investment Provision of information to support locally based real estate agents to proactively attract new business to Region | Dependant on travel restrictions, ongoing development and contact with quarterly reporting | • Dubbo Regional Council  
• Regional Development Australia - Orana  
• Real Estate Institute NSW  
• Dubbo Chamber of Commerce  
• Wellington Business Chamber |
LOCAL PURCHASING BY CONSUMERS AND BUSINESS TO BUSINESS

What do we know about purchasing behaviours in this post COVID-19 climate?

People spending their own disposable income want...

- Australian made products
- Safety and hygiene
- To understand the story behind purchasing
- Easy purchasing and packaging
- Value for money

Consumer spending programs in the past have taught us that...

- Buy local consumer messaging doesn’t work without marketing, peak spending and uploads to buy local cards which have flow on effects for the following two months occur when marketing is active
- Residents are motivated to support small, the Region’s local small business is doing well in retail some recording record spending periods during the COVID impacted period, big brands and national retail stores on that other hand are suffering with low foot traffic and spend
Dubbo Region business engagement and primary research has highlighted...

Small local businesses find it difficult to navigate the process on how to engage with Council for procurement.

Large scale businesses and projects do not communicate their commitments to buying locally well.

Community wants to see commitment from big business and government that they are supporting the community where they operate.
### DUBBO REGION PURCHASING BEHAVIOUR FROM CONSUMERS AND FROM BUSINESS TO BUSINESS

Vision for success: Offset the challenges and embrace the opportunities of COVID-19 retail landscapes to secure local purchasing practises within the business to business supply chains of the Dubbo Region and enhance the buy local behaviours of Dubbo Region’s residential and service area communities.

JOB RECOVERY AND SUPPORT

What do we know about the Labour force in the current COVID-19 climate?

There was a 50% drop in job advertisements between March and June 2020 for the Dubbo Region. Retail Trade, Tourism and Accommodation and Food sectors were the industries hardest hit. Many local staff have been, either stood down indefinitely (on Federal Government Job Keeper payments) or laid off. On a positive note, six out of the top ten employing industries in the Dubbo Region were largely, not directly affected by a change in demand for employment.

Tourism operators, Pubs, Clubs, Beauty Therapists, and Gymnasiums were directly impact by compulsory government imposed closures. Industries such as Health Care, Construction, Education & Training, and Manufacturing maintained stable employment and in some cases had strong demand for extra employees to keep up with demand.

The Dubbo Region labour market outlook is coming from a strong base...

The Dubbo Region has maintained significant low unemployment for a long period. This strong position has been bolstered by six out of the top ten employing industries in the Dubbo Region largely not directly affected by a change in demand for employment during the peak COVID-19 impact.

Since the restrictions started easing, employers are becoming more certain about the future and intended to rehire staff they had previously stood down or let go. There is a high potential for further market volatility and a dent to consumer and employer confidence due to the fluid onset of a second wave of the pandemic across NSW, which has been a consequence of the situation in Melbourne/Victoria. The JobKeeper Payment scheme and other government support are crucial to their survival during this period. However, employers also had concerns about:

- The need to balance staff numbers and hours carefully to manage current workloads and costs
- The need for continued government support
- Staff health including mental health
- Lower demand for products and services, lower turnover and emerging cash flow problems
- For some, difficulties securing stock and supply chain problems
- Challenges due to closed borders and travel restrictions
- Difficulties placing new apprentices/those in training

Significant infrastructure investment in the Dubbo Region will support the Region through substantial employment, with projections highlighting strong demand for skilled labour on these major projects, including Regional Rail Project, Destination Dubbo Developments, major highway upgrades, Dubbo Hospital redevelopment project.
What are the Dubbo Region’s opportunities?

Changes to education models; could lead to more flexible learning or centres of excellence

Provide central space for large scale industry recruitment (retail and hospitality)

Engagement of university to be more focused on the engagement with the community where it operates, relationships and community presence

A number of large-scale and large-value projects, both private and government driven, in the Dubbo Region infrastructure pipeline provide a great opportunity for local business to be engaged

Big infrastructure and government projects upcoming provide a great opportunity for local business to be engaged

What are the challenges in the Dubbo Region?

Construction industry slowing down in residential builds, however, the Australian Government’s Job-builder program may help to stabilise the sector

Difficult to get loans for a large portion of even full-time employed people

Changes to the tertiary education models could cause changes for training and development

Businesses need assistance in recruitment don’t have the time or money to engage (Trades, Retail, and Hospitality)

Engaging university or tertiary gap year students for shorter contract periods and low skilled work

Engagement of industry as a whole for recruitment, rather than individual businesses undergoing the task alone

Numerous tertiary institutions are in the Dubbo Region, opportunity to establish new partnerships and/or strengthen existing partnerships

Dubbo Regional Council to be a leader in local procurement with the recent adoption of Dubbo Regional Council’s Local Procurement Policy
The Dubbo Regional economy has performed strongly over recent years, with evidence that parts of the economy are operating at close to full capacity. With a large pipeline of significant infrastructure and construction projects planned for the region and low levels of unemployment, it is expected that some industry sectors will suffer from a shortage of skilled staff over the next few years, unless strategies are put in place to support economic growth. Investment and employment projections have highlighted strong demand for labour relating to specific types of projects such as construction, energy, mining, road and rail.

Industry feedback has highlighted skills shortages across a range of skills; for instance plant operator, truck driver, electrician, diesel mechanic, metal fabrication trades and engineer shortages are highlighted due to the significant infrastructure projects, with the future demand likely to remain high. A key finding is that low unemployment is hampering the ability of businesses to find relevantly skilled staff. The number of employment aged individuals (15 – 64 years of age) is falling and growth in the construction and related sectors will make this shortage worse.

What are the challenges in the Dubbo Region?

- Large scale regional development looking for skilled workers
- Part qualification training for upskilling business and workers
- Residential build slows, does that free business up for commercial build?
- Construction largest growing sector traditionally with sole traders leaving an existing business to start up on their own
- Low unemployment means lack of ready workforce for new upcoming projects (lull from COVID may impact this)
- Risk of FIFO for projects that could have ongoing skills demands in the Region

What are the opportunities for the Dubbo Region?

- Dubbo Regional Council to lead connectivity into large scale projects requires manual follow up and local push to government and large scale contractors
- Skills attraction
- New industry development with relevance to existing experience in the business community, for example, rail.
- Pipeline of infrastructure works that can support skills attraction for longer periods
- Connectivity from school into work/industry through established relationships increasing participation in work experience for secondary school students, traineeship programs and apprenticeships
- Regional collaboration based on drive time to work, showing capacity of offering for life and work choices

What do we know about the CBD’s and the trading environment in the current COVID-19 climate?

The Dubbo Region’s CBDs (Dubbo and Wellington) have had transformative use throughout the COVID-19 pandemic. The foot traffic and uses within the CBD’s have gone through definitive stages of change which has presented different opportunities and challenges throughout the Covid-19 Pandemic.

We know the current levels of people using the CBD’s is high compared to the stages before the COVID-19 compulsory closures and lock downs. The COVID-19 pandemic and associated social lockdown policies have resulted in numerous businesses having to close operations. Some of these closures will be temporary, however, for others this will be a permanent closure. Those businesses undergoing a temporary closure may not have the capacity, or the demand to return to pre-COVID-19 levels of operations for quite some time.

Other operators have had a very successful period of trade, with a pivot to safe operational procedures and contact free transactions. The region is facing some challenges but also has some opportunities presented.

What are the challenges in the Dubbo Region?

Empty shopfronts  Derelict and deserted sites  CBD parking  Events restricted  Covid Christmas celebrations restricted  Underutilised areas or “dead” spaces

What are the opportunities for the Dubbo Region?

Sites primed and approved for development for attraction of new retail/businesses to the Dubbo Region  Destination Dubbo – International Ready Projects  Macquarie River CBD Masterplan development  Increased post-Covid lockdown pedestrian activity

Both Dubbo and Wellington CBD’s have an abundance of good quality, available shop frontages for new businesses wishing to engage in traditional, foot traffic driven trade in the Region. Those local retailers who have had the opportunity to trade through online marketplaces have managed to sustain some level of trade, while others have had to pivot from their normal trading models and come up with innovative ways of accessing their usual markets. There have been some remarkable success stories from the resilient and adaptable local business community, including many who have started and offered a free delivery service or other who have installed contact free locker box style pick up and drop off services, so their customers could continue to safely gain access to their purchased goods.
Vision for success: The Dubbo Region CBDs react to impacts, opportunities and restrictions of COVID-19 to create a safe, full and viable mix of business and commercial entities that employ people and attract spending
