

TREES AND PRUNING

TREE MAINTENANCE OR REMOVAL

The maintenance of trees on privately owned land is the responsibility of the property owner. If you would like to ringbark, cut down, top, lop, and/or remove a tree from your property but aren't sure if it's permissible, you can consult the Significant Tree Register.

This register is intended to preserve trees and groups of trees which are attached additional values that make them "significant". For example, it may be a remnant of a previous landscape, have been planted by a famous person, be rare or an endangered species, or be of cultural or aesthetic value.

If the tree in question is listed on the register, please contact Council to discuss further.

Tree Preservation and Significant Tree Report 2019

To nominate a significant tree please complete the form below

STREET TREES

Street trees play a major role our urban environment by absorbing heat, providing shade and reducing solar radiation. They also assist in noise reduction and air purification.

If you have a request for planting, pruning and removal of trees on Council land, contact us. The tree will be assessed and any necessary work will be carried out by our staff.

Council does not prune trees for power line clearance. Essential Energy is responsible for pruning street trees in these circumstances and sets out the required clearance for its power lines. Please visit the [Essential Energy website](#) for more information.

NOMINATION FOR SIGNIFICANT TREE REGISTRATION FORM

Complete the below form to nominate a single significant tree.

Title*

CATEGORY UNDER WHICH NOMINATION IS BEING MADE(single tree)*

- It may be a remnant of a previous landscape.
- It may have been planted by a famous person.
- It may be rare, old or magnificent etc.
- It may be a particularly fine representation of its species.
- It may be a specimen of an endangered species.
- It may be of cultural value eg: may have Aboriginal markings or early survey markings etc.
- It may be of a particular aesthetic value.
- It may have biological value to the environment.

CATEGORY UNDER WHICH NOMINATION IS BEING MADE(Group of trees)*

- They collectively fulfil any of the criteria for single trees.
- They may form an integral part of the landscape of a heritage building or precinct.
- They may be a group of trees which have some historical significance.
- The trees should co-exist or support another feature of the natural environment that would face extinction if this association was to cease.
- The trees should provide a fundamental understanding of the customs or lifestyles of previous generations, either alone or in association with other elements.
- The trees are an integral component of the watershed and drainage system (including the aquifer recharge system).
- The trees provide habitat for native wildlife.

THIS NOMINATION IS SUPPORTED BY THE FOLLOWING INFORMATION: (LIST RELEVANT INFORMATION WHICH MAY SUPPORT YOUR NOMINATION IN TERMS OF THE CATEGORY NOMINATED ABOVE).

.

LOCATION OF TREE (Provide details on the location of the tree. For example: situated 2 metres south of the front fence and 5 metres east of the western fence on the block at No. 315 Some Street. Attach a map if necessary).

The background is a solid teal color. It features several stylized virus particles of varying sizes and shades of blue and white. The largest virus is in the center, with a dark blue core and a lighter blue outer shell covered in small white protrusions. Other smaller viruses are scattered around it, some with more prominent spikes. A dark grey horizontal bar is positioned across the middle of the image, containing the text 'COVID-19 RESPONSE' in orange, bold, uppercase letters.
