

## BORE PUMP TESTS AFTER REPAIRS

Riverbank Bore pump and the irrigation system servicing seven open spaces will be tested over two days next week after completion of repairs by Dubbo Regional Council.

The bore has been out of action for three weeks after an electrical fault in the pump. A replacement pump is being installed.

Council staff will run the bore pump and check there are no faults in the irrigation systems between 7am and 4pm Monday and Tuesday.

Watering systems will be tested at John McGrath Fields, Bob Dowling Ovals, Nita McGrath Courts, Katrina Gibbs, Macquarie Lions Park, Hans Clavan Fields and Riverbank Foreshore.

The bore supplies non-potable water to the open spaces.
