

## SEALING OF GOONOO AND EURA STREETS, EUMUNGERIE

The Village Sealing Project in Eumungerie is scheduled to start from Monday 23 March. The 2019-2020 Village Sealing Program includes the sections of Goonoo and Eura Streets.

Works are anticipated to take approximately three weeks to complete, weather permitting. Council also wishes to notify residents the pre-construction works may commence in the week prior to prepare for the start date.

This project will include road reconstruction, drainage improvements, construction of driveways and bitumen sealing. The proposed drainage works will involve the construction of table drains and channels along the roadways, along with the redevelopment of a pipe across Goonoo Street.

Due to these works, Goonoo and Eura Streets along with Cobboco Road will be under traffic control throughout the three-week period. Some of these works will occur in front of residences, and as such, access to residential driveways will be periodically disrupted. Council will liaise with residents in an effort to minimise the impacts of these improvement works, though residents are advised to prepare for limited access through the construction period.

Council acknowledges the inconvenience these works may cause, especially to local residents. We thank you for your continued understanding during these infrastructure improvement works.

If you have any further concerns please contact Council's Customer Service, on 02 6801 4000.
