

VANDALISM COSTLY AT POPULAR YOUTH FACILITY

Councils Manager of Recreation and Open Space Ian McAlister said that it is disappointing that the cost of repairing damage done by vandals is jeopardising the amenity of one of Dubbo's most popular parks for youth.

"It is sad to say that the shade sails over the Victoria Park Skate Park have been removed due to a recent vandalism attack," Mr McAlister said.

"This is the second vandalism attack on this very important piece of park infrastructure in the past eight months," he said.

"The shades were only returned three weeks ago after being repaired and in that short space of time has been damaged again,"

"The repair bill for the first incident cost \$10,000 and there is every reason to expect that the cost will be in a similar vein this time," he said.

"Thankfully, CCTV cameras were installed recently and the incident has been reported to police," he said.

"There are many young people in the community and visitors to the city who enjoy using the Skate Park and the shade sails were installed to make the area safer and more enjoyable particularly during summer months," he said.

"At this stage Council are investigating as to whether it is cost effective to repair the sails if incidents of vandalism will be repeated," he said.

The background is a solid blue color. It features several stylized virus particles of varying sizes and shades of blue and white. The largest virus particle is in the center, with a dark blue core and a lighter blue outer shell with small protrusions. Other smaller virus particles are scattered around it, some with more prominent spikes or protrusions. The overall aesthetic is clean and modern.
