

SES/VRA HEADQUARTERS, DUBBO

Summary: This project has developed from a submission to the Minister for Emergency Services from 2012 requesting a new headquarters for the SES. The facility aims to improve efficiencies and collaboration of the two agencies who work closely together.

The relocation to the Airport further supports the emergency services precinct that currently exists with the RFS State Mitigation Service and RFDS located adjacent to this development.

Construction will include:

- 888m² shed to accommodate emergency vehicles, workshop and storage areas
- 448m² office building containing separate offices, amenities, kitchen and training rooms
- Car parking area

Budget: \$2.3m

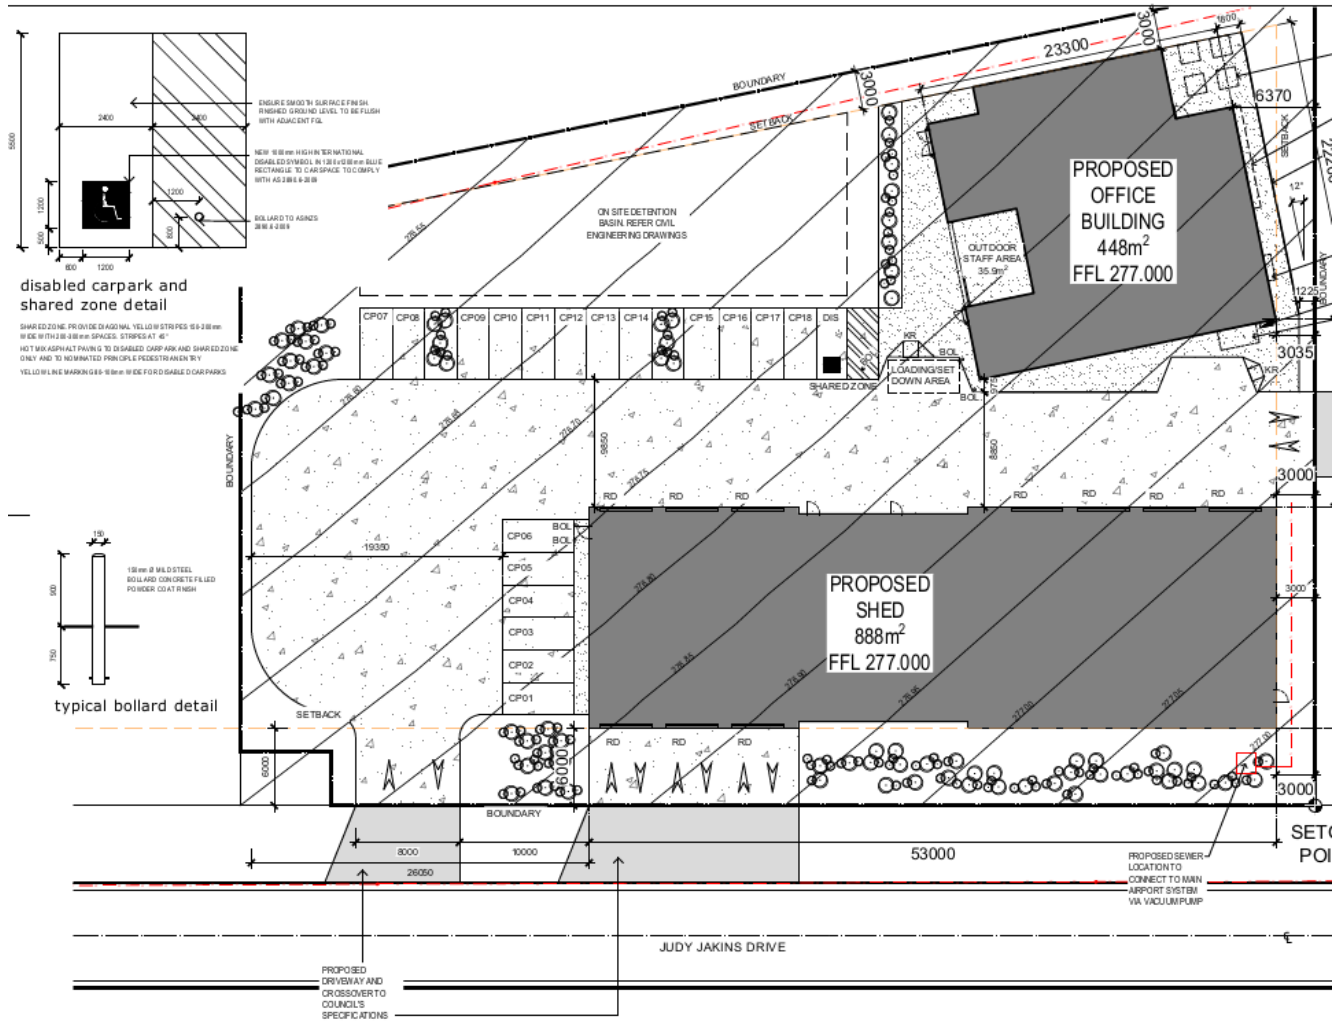

Status: Construction

Funding: NSW State Government

Timeline: Completion expected 31 March 2019

Contractor: BLD Constructions Pty Ltd

Plans:

Updates:

- Concrete slabs complete
- Framing commenced

Last Edited: 21 Jan 2019
