

UNDER-BORING MITCHELL HIGHWAY WELLINGTON

Dubbo Regional Council (DRC) wishes to advise motorists in the Wellington area that traffic control will be in place on the corner of Mitchell Highway and Montelores Street from Thursday 11 August 2022. Traffic will be reduced to a 40km roadwork zone, it is anticipated that both lanes of the Mitchell Highway will remain open.

The traffic control will be in place for approximately 3 weeks.

These measures will facilitate the under-boring of the Wellington pipeline, that will help to secure Wellington's underground water supply in times of severe drought.

Council wishes to thank the community for its patience and understanding during these works.
